Pretoria Bank Chief Says Crisis Affects All Southern Africa

By Bob Hagerty

LONDON — Gerhard de Kock, head of the South African central bank, reiterated Friday his government's warning that a continued refusal by foreign banks to lend money to the country would batter

454 Schools Are Closed to End Unrest at German banks that are major lenders to South Africa. He was expected Cape Town

South African government closed 454 schools for mixed-race students around Cape Town until fur-ther notice Friday after 10 days of persistent unrest.

Carter Ebrahim, minister of education and culture in the chamber of Parliament for the mixed-race minority, said that normal school-ing could not continue and that student safety could not be guaran-teed because of "the disruptive actions and intimidation of pupils by an organized minority."

Mr. de Kock said at a press conference that his country would suf-fer higher inflation and interest rates if foreigners continued to withdraw their capital.

"There is no way you can destroy the economy of South Africa without destroying the whole of sub-Saharan Africa," he added. A deputy foreign minister, Louis M. Nel, issued a similar warning

Thursday in Pretoria. Mr. de Kock later flew to Frankfurt for talks with officials of West ed to visit banks in Switzerland over the weekend before returning

As governor of the South African Reserve Bank, Mr. de Kock was JOHANNESBURG - The completing more than a week of what he described as "shuttle diplomacy." During the mission he tried to explain to U.S. and Euro-pean bankers his country's response to its financial crisis.

South Africa announced Sunday a four-month suspension on repayments of principal on most foreign loans as part of an attempt to stop a plunge in its currency, the rand.

After a sharp drop in morning trading in London, the rand ended little changed Friday from Thurs-day, at 40.9 U.S. cents.

The South African financial crisis blew up when some big U.S. banks, alarmed about racial vioence in South Africa, began demanding immediate repayment of thort-term loans instead of renew-ing them automatically as usual.

Because the country cannot afford to repay at once all of its \$12 billion in short-term loans, Mr. de Kock said, it needed breathing space to work out a plan to reschedule payments.

But the suspension is already in-terfering with South Africa's ability to finance foreign trade, a vital part of its economy.

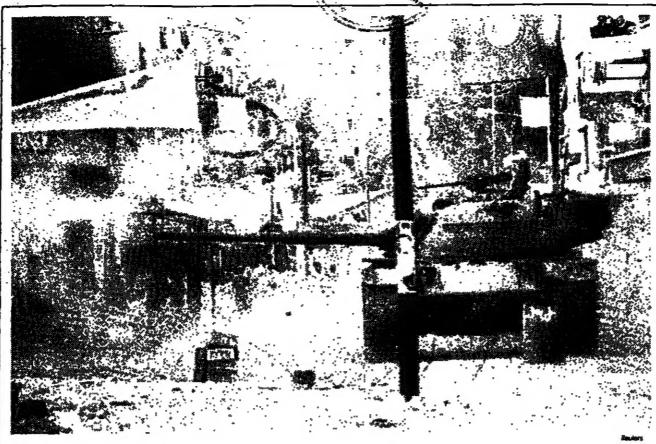

Bankers in Johannesburg said that some foreign banks this week land towns to the sust of fiscare. In the band on trade payments due to Meanwhile. U.S. Jobless Rate Declines to 7%, A 5-Year Low

WASHINGTON - The U.S. civilian unemployment rate, which had been stagnant for six months, fell 0.3 percentage point in August, to 7 percent, the government said Friday. It was the lowest jobless rate in more than five years.

The Labor Department said that

about 310,000 jobs were created last month and that jobless rates fell in every major population group except that of adult women. The report confounded private analysts, who had expected little if any improvement in a rate that had been stagnant for six months.

But President Ronald Reagan said the new report serves as "proof America's economy is packing new

However, much of the overall decline in unemployment came in the volatile teen-age category,

which, even with seasonal adjust-A record percentage of the U.S. unemployed are no longer re-ceiving benefits. Page 3.

ment, is prone to skew the overall calculation at the beginning and end of the school year.

Because of that, analysts cautioned that overall job gains may not be as dramatic as they appear. Indeed, August's drop in unemployment was concentrated among those aged 16 to 24. The rate for teen-agers fell 2.2 percentage points, to 17.3 percent, while the

rate for black teen-agers, considered the most volatile of all, dropped more than 5 percentage points, to 34.5 percent.

Janet L. Norwood, the commissioner of labor statistics, told a joint congressional committee that,

because of the volatility of the black teen-age rate, "additional data are needed to determine whether the August decline will be sustained."

Edward Yardeni, chief econo-mist at Prudential-Bache Securities, said after the lignres were released that, "I'll wait another month to see whether this is for real, or just a statistical aberra-

He said that he was not yet revising upward his forecast that the nual rate of just 1 percent in the third quarter.

Mr. Yardeni pointed out that interest rates are up and that the dollar, reacting to rising U.S. auto sales, hit its highest level in two months on Friday against major foreign currencies.

A strong dollar is likely to worsen the U.S. trade deficit and higher interest rates would be a drag on

the economy, he noted. The report, however, contained some encouraging, substantive

signs of economic growth.

Manufacturing employment rose for the first time in 1985 and was up 37,000, the report showed. Through the first seven months of the year, the economy had lost more than 200,000 manufacturing jobs, many in industries hard hit by

foreign competition. About 25,000 of the new manu-

Dollar Gains In U.S., Europe

taking.
The dollar ended the day in the United States below its highs against most currencies as traders sold dollars to cash in on the sharp gains and to reduce their exposure to changes in sentiment that might occur over the weekend. Page 15.

facturing jobs were in the auto in-

At the same time, the manufacturing workweek rose to 40.5 hours. its highest rate of the year. Meanwhile, the pool of workers without jobs but seeking them fell by 324,000, the year's biggest drop, to 8.1 million.

Service industries showed anothsolid gain, adding 235,000 jobs. Not since June 1984 has the overall jobless rate fallen so sharp-And the overall rate has not been at the 7-percent mark since April 1980, when Jimmy Carter

Panel Urges Canada-U.S. Free Trade

By Herbert H. Denton

Weshington Post Service
TORONTO — A prestigious Canadian commission has strongly urged negotiations with the United States for a free trade agreement. saying that it is the best way for Canada to avoid becoming a target of protectionist U.S. legislation.

The report, issued Thursday by the Royal Commission on the Eco-nomic Union and Development Prospects of Canada, said secure access to the giant American market would be essential if Canadian manufacturers were to survive in the competitive world trade environment.

Free trade involves the abolition of tariffs and other trade barriers.

The commission noted that Canada conducts more than threefourths of its trade with the United States. "One of the factors which brings home the degree of our vul-nerability," it said, "is the protectionist legislation poised for passage in Congress."

Even where we are not the principal target, we risk being the major victim of a spate of protectionist legislation," the report said. The trade relationship between

the United States and Canada is the most extensive in the world. The volume of trade between the two nations totaled more than \$120 billion (90.9 billion Canadian dollars) last year, according to the U.S. Commerce Department.
The balance has tilted heavily in

Canada's favor during the past five years, with a surplus for Canada last year of roughly \$16 billion, according to U.S. and Canadian That surplus, which is expected

to increase marginally this year, is largely the result of increased auto exports to the United States by the Canadian subsidiaries of American car manufacturers. Under existing multilateral trade

agreements, roughly 80 percent of Canadian exports to the United States are duty-free, as are about 60 percent of American goods exported to Canada

The principal tariff barriers imposed by Canada average about 9 percent, but can run as high as 21 percent and have been imposed largely to protect Canada's fledgling furniture, textile and consumer (Continued on Page 2, Col. 3)

SEOUL RALLY - About 500 students held an overnight sit-in at a university in Seoul to demand that democracy be restored in South Korea. A student doused his clothes with gasoline and threatened to set himself on fire if police tried to arrest him, but he was overpowered Friday after officers used tear gas to disperse an afternoon rally.

Amid Rising Costs, Scandals, U.S. Seeks Ways to Curb Medical Incompetence

By Joel Brinkley New York Times Service

WASHINGTON - After decades of little action, the U.S. government, industry and organized medicine have begin a new attack on the problem of medical

malpractice and incompetence.

Despite the general high quality of American medical care, some physicians are drunken, addicted to drugs, senile, poorly trained, dishonest, infirm, mentally ill, or otherwise incompetent. That is true for any professional group, but the difference between medicine and most other professions is that a doctor's

Various medical groups have estimated that at any given time, 5 percent to 15 percent of the nation's physicians are incompetent or impaired and should not be treating patients. In 1984, however, the medical licensing boards in the 50 states and the District of stays, re-admissions, expensive additional surgery or care and the Medicaid, the federal health care pro-Columbia together revoked only 255 licenses, one for other treatments, as well as malpractice-spit settleevery 1,701 practicing physicians.

Concern over the ever-rising expense of U.S. medi-cal care, now estimated at more than \$1 billion a day, has forced attention on the problem because incompetence can also be very expensive.

As a result, programs have been launched across the

tion to help steer patients away from incompetent physicians and to rehabilitate or remove from practice doctors who should not be treating patients. Spearheading the efforts are the federal govern ment, major corporations, insurance companies, hospitals, state medical boards, the American Medical

Association and other medical groups. Interviews with dozens of government health offi-cials, medical association officers, and other experts have shown that allowing incompetent doctors to continue practicing adds billions of dollars to U.S. health-care bills. Mistakes lead to longer hospital ments that run into millions of dollars.

Recent disclosures of substandard care in military hospitals and questions about the appropriateness of President Rouald Reagan's medical treatment in July have given the issue even greater prominence.

At the heart of the problem is the disjointed system of the live problem is the disjointed system. The live problem is the disjointed system of the live problem is the disjointed system.

of medical discipline that has grown up over the last the Justice Department's fraud section, "and medical century. Hospitals, medical societies, state licensing boards, and federal peer review organizations all regu-late doctors who fall within their jurisdiction.

Each tries with varying effectiveness to protect its own territory, usually ignoring outside problems. An hospital or state to state as problems are discovered by each agency, and no one oversees the entire system, according to officials. As a result, there are numerous instances of poor

treatment that ultimately drive up the costs of Medi- practice. grams for the aged and the needy. Now, for the first time, some federal officials are

societies are supposed to police their own."
"But all this falls apart so often that you come to the point where you realize something has to be done, and maybe there is a federal role," he said.

Mr. Foster and others point to the disclosure last incompetent physician may move from hospital to year that several thousand people who never attended medical schools had bought fake medical degrees and were working as physicians. None of the phony doctors were discovered by the nation's medical licensing entities; the U.S. Postal Service uncovered the and burst into flames.

According to David Cyr, the Postal Service investigator who headed the inquiry, the phony physicians (Continued on Page 3, Col. 1)

Union Power Tested by Aborted South Africa Strike

By Sheila Rule

New York Times Service JOHANNESBURG — Minutes before members of the National Union of Mine Workers went on strike against three mining companies Sunday, the union's general secretary said he expected employers to use the almost absolute power they wield over the workers and quickly cripple the work

On Wednesday, the labor leader. Cyril Ramaphosa, and other executives of the union announced that the strike had been

They said that the action was aimed at protecting miners from threatened dismissals and evictions from the hostels where almost all are required to live. The union leaders asked South Africa's industrial court to rule on the protection of workers who participate in a legal strike.

The question of what the strike accomplished is in dispute. In the view of many, the strike was a failure. The union did not call strikes at some of the mines where it legally could have. The union, regarded as the country's strongest black labor group, had said that it expected 62,000 miners to

By the union's estimates, 28,000 mine workers went on strike; management in-sists that only half that number participat-

This expert also said that the poor showing by strikers was probably due to intimida-

ing to analysts. These authorities said that chances of a successful walkout deteriorated after the union allowed the overwhelming majority of its members to accept an improved wage offer while calling for the rest to strike.

In addition, political commentators point to the fact that many of the workers are. in effect, outsiders. By South African law, 97 percent of all black mine workers must be migrants; they live in single-sex hostels in mine compounds while they work on one-year contracts.

Of the migrants, 40 percent are from neighboring countries such as Lesotho, Swaziland and Mozambique, and the rest are from the so-called homelands within the nation's traditional frontiers.

If these men are expelled to another country or to a homeland, they face longterm memployment and a loss of the income that supports their families and the economies of their countries. Given depressed economic conditions and a scarcity of jobs in their home areas, they are vulnerable to such retaliation by the mine owners and more willing to ignore strike calls. "At some point, management will have

Shiites Fight Palestinians, Druze in West Beirut

By Nora Boustany

Washington Post Service
BEIRUT — Clashes around Beirur's Burj al-Brajneh Palestinian refugee camp deteriorated Friday into heavy rocket and mortar duels. Officials of the Shiite Moslem Amal militia admitted that Palestinian civilians in a Moslem suburb of Beirut had been murdered.

Amal militiamen battled with Palestinian fighters in the densely populated shantytown of Burj al Braineh for the fourth consecutive day as street fighting continued between the Amal and Druze militias in West Beirut.

irate Shiite gunman, enraged by the death Thursday of his brother, an Amal fighter, had stormed into the homes of Palestinians living in the Haret Hraik suburb and killed between seven and 14 people.

"We have to admit that it was done," Mr. Seblani said, "The man who did it is not a member of Amal, but the severest punishment will be taken against him."

His actions were against Palestinian civilians, not fighters, and it is our responsibility to protect them," Mr. Seblani added.

As Amal pounded Burj al-Brajneh, the Marxist-oriented Demo-cratic Front for the Liberation of Palestine accused the Shiite militia of storming a number of buildings and liquidating "Palestinians living there in one batch, then dumping them in the street."

The latest round of Shiite-Palestinian fighting, in its fourth day, has raised fears of a second chapter of a camp war in May and June that pitted Amal against guerrillas entrenched in the camps around

The first round claimed over 650 lives and wounded 2,500. It ended with a Syrian-sponsored cease-fire and brought Syrian military ob-servers to Beirut as part of a multiparty coordination committee to

supervise the truce. Mr. Seblani said Amal had de cided Friday to enforce a cease-fire and to send some of its members to help put it into effect on the the measures taken so far by Iran ground.

On Thursday, Druze fighters of the Progressive Socialist Party bat-tled with Amal militiamen following an argument over gasoline rations and the right of way in a Moslem neighborhood.

The clashes spread as Moslem gunmen poured into the streets and fought with rocket-propelled grenades and machine guns from alleyways and rooftops of residential

trying to buy technical plans and electronic telecommunications equip-ment. Some of the equipment had military applications and was barred from export to Eastern Europe.

Mr. Zemlyakov, an engineer, had worked at the Cologne-based trade.

mission since December 1983 but does not have diplomatic immunity. He denied the charges. The judge, Klaus Wagner, said he considered it proven that Mr. Zemlyakov was a full-time agent for Soviet intelligence. He was arrested in April in Cologne at the last of 11 meetings with an employee of a West German electronics firm. The employee said that Mr. Zemlyakov had offered him "under-the-table" payments for information

Three Mile Island Cancer Rate Normal

HARRISBURG, Pennsylvania (UPI) - There is no evidence that radiation from the United State's worst nuclear power accident has caused cancer in residents near the Three Mile Island plant, according to the first government health study of the accident.

But Pennsylvania's health secretary, Dr. H. Arnold Muller, cautioned Ghassan Seblani, a member of Thursday that the findings were inconclusive because a person exposed to the Amai politburo, said that an a cancer-causing agent might not develop the disease for 10, 20, 30 years

The report on the cancer rate was the first of its kind by a government. agency since the Unit 2 nuclear reactor at Three Mile Island was damaged in a partial meltdown in 1979. The study shows a normal cancer death rate for residents living within 20 miles (32 kilometers) of the plant for the five-year period beginning Jan. 1, 1979.

Afghan Rebels Claim Russian Retreat

ISLAMABAD, Pakistan (Reuters) — Afghan guernillas said Friday that their counteroffensive against a Soviet thrust in Afghanistan's Paktia province, which borders Pakistan, had forced Soviet troops to retreat in at

Soviet forces had retreated in the Jaji area in the north and fierce fighting was now going on in the Khost area of eastern Paktia, a guerrilla

The spokesman for the Hezb-i Islami guerrilla faction said the Soviet troops, seeking to seal guerrilla supply routes from Pakistan, had advanced to within 1.8 miles (3 kilometers) of the Pakistan border in the Jaji area. But he said the counteroffensive by about 5,000 veteran Mujahidis. fighters pushed them back about 4 miles to the garrison of Chawmi.

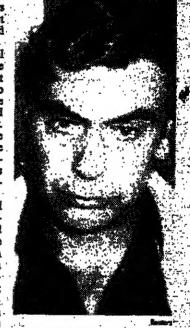

Greek Admits He Cast 11 Into Sea

ATHENS (Reuters) — A Greek sea captain admitted Friday that he had forced 11 African stowaways into the Indian Ocean last year, but he said he did so only after they had

Antonis Plytzanopoulos, on trial with eight other Greek and three Pakistani seamen over the incident off Somalia in March 1984, also said that he had threatened the stowaways with a rifle and had struck one of them during a fight. Mr. Phytzanopoulos, captain of the 9,778-ton Garifalia C, told five judges that the first stowaway appeared on March 15, a few hours after the ship left Mombasa, Ke-

Mr. Plytzanopoulos said he had decided to send the stowaways toward shore in lifeboats, but he said

that they rebelled on March 17. He said he then gave orders to turn toward shore and tried to reason with the stowaways. They answered with insults, he said, adding that he decided to cast them overboard amid "strong protests from the crew." Four of the Africans were said to have survived.

Death Toll Rises to 10 in Chile Protests

SANTIAGO (AP) — Hundreds of shun-dwellers rioted during the night and four persons were killed, bringing to 10 the number who have. died in anti-government protests and disorders, officials said Friday. Soldiers fired automatic rifles in the air to scatter 200 people who were ransacking a supermarket Thursday in a Santiago shum, and riot police surrounded another poor neighborhood and fired tear gas at demonstrators. Demonstrations began Wednesday calling for a return to democracy. after 12 years of military rule.

Two of the latest victims were killed "in confusing cincumstances" that are still being investigated, police said. News reports indicated they were shot in separate incidents when police repelled mobs trying to loot two stores. A third man died Friday morning at the Santiago Neurology Institute, officials said. He had been admitted last night with a bullet wound to the head. News reports indicated he was shot during demonstrations in a suburban area

Nicaragua Rebel Aid Legal, U.S. Says

WASHINGTON (NYT) — President Ronald Reagan's national secu-rity adviser, Robert C. McFarlane, told the leaders of the Senate intelligence committee Thursday that no one on the National Security Council had violated the law by assisting anti-government rebels in Nicaragia.

The committee chairman, Senator David F. Durenburger, a Minnesota Republican, said he saw no need for hearings on the matter, although he said he had serious concerns about the council's involvement. The chairman of the House intelligence committee has scheduled hearings to

begin Sept. 17.

Administration officials have acknowledged that a ranking member of the National Security Council, Lieutenant Colonel Oliver I., North. helped raise private funds for the rebels.

For the Record

Improper Bulkhead Repair Cited By JAL Plane Crash Investigators

NEW YORK (NYT) — Investigators looking into the crash of a Japan Air Lines Boeing 747 last month have found evidence of improper rear-cabin repairs that could have led to the disaster. according to authorities involved in the inquiry.

The repairs were made to the pressure builthead in the rear of the main passenger cabin after the plane made a landing in 1978 that was.

so severe it injured 30 people on board. Examination of the bulkhead after the crash last month, in which 520 people were killed, has shown. that a single line of rivets was used for part of the repair instead of the double line of rivets called for in the manual, the informants said. The repairs were made by a team sent to Japan by the Boeing Co.

builder of the jumbo jet. A central issue, according to sources close to the inquiry, is whether the repairs allowed abnormal weakening of the bulkhead and caused the structure to blow out as the airliner was flying between Tokyo and Osaka.

Mr. Murphy, assistant secretary for Near Eastern and South Asian what decision will be made about a affairs, visited the region last month but refrained from meeting will be something that Israel can with a joint delegation after he was not given assurances that the direct talks with Israel would result.

According to the sources, Mr. Murphy then told Secretary of State George P. Shultz that there was no chance of movement unless the United States met with a delegation tentatively scheduled to include Mr. Shaat; Hanna Seniora. editor of an East Jerusalem newspaper; Faiz Abu Rahmeh, a Palestinian lawyer from the Gaza Strip: and Henry Kattan, a Palestinian historian living in Europe.

Mr. Murphy is understood to have told Mr. Shultz that, if the meeting is held, he believes that the PLO then would recognize the UN resolutions dealing with Israel's right to exist.

His recommendation that the United States test the PLO's intentions reportedly has been backed strongly by several important State Department officials, including Michael H. Armacost, undersecretary for political affairs.

However, Mr. Shultz is understood to be uncertain about whether to accept Mr. Murphy's recommendation, and the plan has been referred to the White House for urther consideration.

Underscoring the proposal's controversial nature is the proposed inclusion of Mr. Shaat, a Cairo resident who has been a close Arafat adviser on political strategy. He has represented the PLO at mternational meetings.

Despite his background, administration officials said Thursday that, because the PLO is an umbrella organization of several Palestinian groups and "doesn't issue memmake different interpretations Arabia and Jordan. about what constitutes member-

Black urban professionals under 40, or buppies, are an emerging phenomenon in American politics. With the doubling of black collections and the doubling of black collections. black college graduates to a mil-lion in 1981 from half a million in 1970, they are the sons and daughters not only of doctors, lawyers and teachers, like the previous generation of black leaders, but of factory hands, mailmen and domestics.

More than one of every eight blacks aged 25 to 34 has completed four years of college, com-pared with one in five whites. According to a University of Michigan survey, 56 percent of them belong to black organizations, twice the rate for other blacks. They are twice as likely as other blacks to have attended protest meetings.

"While most of us can be labeled buppies, we all wince at that," said Helene Colvin Wallace, 30, a Smith College graduate who runs the advisory commission on women's affairs for Mayor Harold Washington of Chicago and worked on his campaign committee. Buppies also helped win election for Mayor W. Wilson Goode in Philadel-

William Lucas, 57, the chief executive of Wayne County, Michigan, which encompasses Detroit, switched from Democrat to Republican this year. He says young black professionals today "are thinking for themselves. They're are mostly Democrats now because their parents were," but "it's just a matter of evolution before we see more young blacks taking leadership in both parties."

Short Takes

Miami police say a crackdown has curbed "smash and grab" robbers on Interstate 95. More than 100 motorists have been robbed on the road since January, but only three such incidents occurred in a recent two-week

Spanish Firm **Sent Moscow Electronics** From U.S.

By James Gerstenzang Los Angeles Times Service
WASHINGTON — The Soviet

Union has illegally obtained more state-of-the-art U.S. equipment that could help it close the gap between its weapons and highly so-phisticated U.S. weapons, according to a Department of Commerce official and an indictment.

Additional highly sensitive equipment has reached Cuba, the official said.

Details of the case, which involves efforts by the Soviet bloc to obtain equipment crucial to the production of computer semiconductors and integrated circuits, emerged Thursday when a Spanish company that maintains offices in Illinois agreed to pay a fine of \$1 million for illegally exporting high-technology equipment between 1979 and 1982.

U.S. Attorney Joseph E. diGenova issued a statement saying that the violation, by Piher Semicon-ductores, SA, of Barcelona, was "one of the most significant in the area of United States high-technology transfer."

the company pleaded guilty to two felony counts, waived indictment by a grand jury and agreed to pay the fine. The company, which has already been barred for two and a half years from exporting U.S.made products, will remain barred for an additional nine months.

Equipment valued at \$2.4 million was shipped to the Soviet Union and Cuba, but other highly sensitive items did not get through, according to Pentagon and Commerce Department officials familiar with the case.

Those officials described the lot as items at the top of the Soviets' list of material needed to help them move into the age of highly sophis-ticated, computer-dependent weapons.
Officials said that the Soviet

Union, which in the past has tried to obtain semiconductors and integrated circuits produced in the West, had recently shifted its emphasis to obtaining the equipment needed to make the circuitry.

"Such equipment is among the Soviet bloc's most highly sought American high-technology goods needed for expanding and improving the bloc's lagging microprocessor and semiconductor production capability," said Donald Creed, a Department of Commerce spokes-

He said that departmental documents "confirm that \$2.4 million of these goods were illegally re-exported to Cuba and Russia." He added that "the most sensi-

tive, state-of-the-art semiconductor manufacturing equipment went to the Soviet Union," after first being writes "state alert" letters to the other boards so that they, too, can shipped to Switzerland. Mr. Creed said that the material

shipped to Cuba, and additional equipment the Cubans were unable tor's license. So far this year, the AMA has been sending about 40 to obtain, "would have given them The quality of care and skill of the capability to produce semiconphysicians has never been higher," according to Dr. Joseph F. Boyle, the outgoing AMA president. ductors and integrated circuits."

"As far as we know, the plant didn't get into production," he said. "They didn't get everything they needed." "Nevertheless," he said, "in the past six months, headlines from coast to coast detailed at least three

Catholics, Anglicans Near Under an agreement between the Department of Justice and Piher, the company pleaded sullsy to two

By Joseph Berger

New York Times Service
GARRISON, New York - In an important step toward reconciliation between the Anglican and Roman Catholic Churches, a commission of theologians said that it was close to an agreement on the spiritual means of attaining salva-

The issue is among those that have divided the churches since the Reformation in the 16th century, A principal source of conflict

since the Reformation has been the question of "justification" whether salvation in heaven can be attained by simple faith, as many Protestants assert, or whether it depends on a believer's good works, as Catholics hold.

An eventual accord on the issue, according to members of an Anglican-Roman Catholic commission, would recognize that salvation de-pended on faith and the "grace of God," but that its attainment was helped by personal conduct.

Members of the commission, who were meeting at a Franciscan monastery here, emphasized Thursday that the two churches did not differ greatly over the theology of salvation, and that groups within each church had perceived a sharp-er split than in fact existed.

Roman Catholic International Commission, was established in 1982 by Pope John Paul II and the Most Reverend Robert Runcie, the archbishop of Canterbury, the titular leader of the world's 63 million Anglicans.
The panel met at the Catholic

monastery of Graymoor, 55 miles (90 kilometers) north of New York.

Anglicans and Catholics are aiming not so much toward a single church, but rather toward two bodies that can recognize the legitimacy of each other's clergy, the validity of each other's rituals and the privilege of members to worship fully at each other's churches. Yet with issues such as the ordi-

scope of papal power dividing the two churches, members of the commission indicated that they had no illusions that such recognition could be achieved soon. Some Anglican branches, such as the Episcopal Church, ordain

women and respect the right of women to choose abortions. The Catholic Church refuses to ordain women and prohibits abortion. The commission said it expected

to complete a document of agreement on justification next year when it meets near Cardiff, Wales.

Only 34% of U.S. Jobless Got Benefits in 1985

By Peter Perl
Washington Post Service
WASHINGTON — Although
unemployment has hit its lowest
percentage since the start of the Reagan administration, a record high percentage of the U.S. unem-ployed are no longer receiving any unemployment compensation benefits.
According to government data

and unemployment experts, nearly two of every three unemployed workers have been cut off from eligibility, mostly because they have exhausted their maximum 26 week allotment or because of cutbacks enacted by the Reagan ad-ministration, Congress and most state governments.

The drop in the number of unemployed people collecting benefits represents a sharp shift in coverage in the past decade. During the 1975-76 recession, more than 65 percent of the jobless received unemployment insurance for as long as 65 weeks, but a fairly steady decline in coverage has left only 34 percent of the unemployed collect-

ing benefits this year.
Of the 8.1 million unemployed in August, 2.4 million were collecting benefits from the state unemployment systems that pay an average \$120.60 a week, according to the

Labor Department.

More than 2.5 million jobless have exhausted benefits in the past year, according to the department, while the remainder were disqualified for various reasons, including stricter eligibility requirements im-posed by more than 40 states since

There has been quite a huge drop" in the percentage of jobless menta receiving benefits, said Gary Burt-

Institution, who studied the issue for the Labor Department. He said studies point to no single major cause, but rather a combination of federal benefit cuts, state cuts employment insurance systems, and changes in the national economy that have created more longterm joblessness.

"The bottom line is that a minority of the people who need benefits are receiving it, and we think that is bad," said James Ellenberger, an unemployment specialist for the labor organization AFL-CiO. "The system has become much more re-

Critics of the Reagan administration contend that the cutbacks in the unemployment insurance system have forced increasing numbers of workers into poverty, welfare and homelessness. But others contend that the system has been too generous, and that tighter eligibility has weeded out those who were abusing the program and not aggressively seeking work.

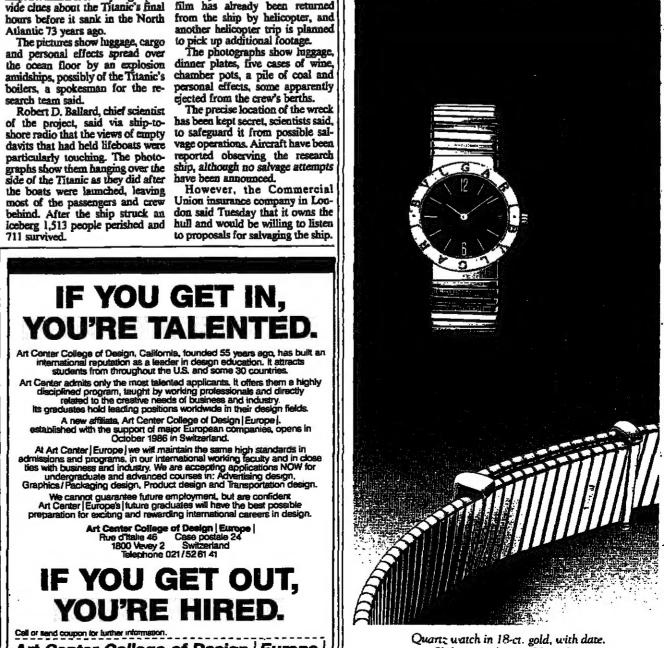

"I think there is a positive side to this cutting back," said Marvin Kosters, a former Nixon administration labor economist now at the American Enterprise Institute. He said he believes that reduced-term benefits provides a strong incentive for the unemployed to seek and find jobs.

During the recessions of the late 1970s and early 1980s, high-unemployment states were also eligible for as much as 39 extra weeks of federal-state extended and supplemental benefits enacted by Con-

A Rude Winter for France

elections only six months away, much can still go wrong for the Socialist government, including events in New Caledonia and the Greenpeace affair. But economic problems seem the most intractable.

There is no scope for a give-away budget in the attempt to woo disaffected leftist voters. The budget in preparation shows every sign of being austere. Even so, it probably will not bring the deficit down from the uncomfortably high level (3 percent of gross national product) at which it has lingered for most of the Mitterrand years.

The bitter truth is that France must perform a perilous re-balancing act on the economic tightrope, with an uncertain safety net beneath. Although the inflation rate has been cut to 6.5 percent, this has been done largely through price controls and official pressure to restrict wage increases, neither of which can succeed indefinitely. Since West German inflation is now close to 2 percent, a new devaluation of the franc, pushing French prices up faster, cannot be ruled out. The foreign balance is still precarious; exchange controls, though they have been

eased, are still thought necessary. The government has acted to reduce these imbalances, despite criticism from its erstwhile Communist partners. But as Laurent Fabius, the technocrat turned prime minister, has made clear, its most painful problem today concerns the jobless. Unemployment, now at 10.5 percent of the labor force, may top 11 percent next year. The tragedy is compounded by the concentration of job-

France faces a rude winter after a cool, lessness among the young and the female rain-swept summer. With the parliamentary and by the rise in long-term unemployment.

Joblessness is high partly because the problems of inflation and the foreign balance impel the government to keep public and private spending on a tight leash. But it also reflects a sad lack of flexibility in the labor market that makes companies more interested in economizing on labor than on recruiting it. Managers fear the difficulty of laying off workers temporarily when sales slacken, as they fear the costs of applying the 39-hour workweek. Pay scales are too rigid. And France is only starting to break down the wage-price indexation system that compresses profits and thus makes it hard for

companies to expand. These are the enemies of growth that Mr. Fabius, or his successor, must attack. The labor unions have been less than helpful. France's new voting system may prove a drag if it produces a parliament where party loyalties are less clear-cut, and shifting alliances — the enemy of good policy — replace the relative order that has characterized the Fifth Republic. Jostling for position within the major parties ahead of the 1988 presidential election may not help.

France, simply put, suffers from an accumulation of errors. Labor market rigidity was fostered by governments long before the Socialists. It would be easier to break it down now if more expansionary macroeconomic policies could be introduced. But the Socialists pre-empted that by their ill-judged dash for growth in 1981. The economy can be put together again, but it may take time. INTERNATIONAL HERALD TRIBUNE.

Peru's Bold New Leader

form-minded new president, Alan Garcia Perez, took bold steps to stabilize his country's reeling economy. He temporarily limited repayments to foreign creditors, froze prices and cut back arms purchases. Now he is showing what may be comparable boldness in another area - mobilizing his government against

a booming cocaine economy.

That puts Mr. Garcia's reputation on the line even more than did the declarations on debt, for repayments had already been reduced in practice by Peru's economic straits. Anti-narcotics measures have so far been blocked by official corruption. If Mr. Garcia cannot eliminate that corruption, his government risks becoming caught up in it.

In the last two decades cocaine has become Peru's largest single export, mostly because of

Immediately after taking office, Peru's re- North American demand. The trade pumps more than \$500 million a year into a desperately impoverished economy. It thrives in remote jungle regions where it is extremely difficult to

control the covert transport of contraband. To fight the drug trade is to take on another war in a country already beset by guerilla terrorism. Mr. Garcia was apparently shocked into action by evidence of how much the cocaine trade had corrupted the government. His investigations have implicated police commanders and high officials of the previous government: Even the armed forces generally eclined to participate in modest official antinarcotics campaigns. Anti-narcotics programs promoted by the U.S. yielded few results. If Mr. Garcia follows through with his cam-

paign, better results should soon be apparent.

Vietnam and the MIAs

For the two years before and the 10 years since the final U.S. withdrawal from Vietnam, the Communist victors in Hanoi have toyed with one of the few Vietnamese matters still of deep interest to a broad American public: the fate of the 1,000 or more U.S. servicemen believed to be missing or unaccounted for in Vietnam, and the lesser number lost elsewhere in Vietnam-controlled Indochina.

Since 1973, with elaborate and grotesque calculation, the Vietnamese have doled out the remains of 99 American servicemen. Their diplomatic relations and generally a full return to international society. They seem to have thought that by thus playing cynically on the sentiments of the American people, they could win concessions otherwise beyond their grasp.

But they have failed. Victnam remains largely an international pariah for reasons including its treatment of the MIAs and its sponsor-

ship of a harsh occupying regime in Cambodia.

Therein lies the possible importance of an agreement Vietnam has just reached with the United States to take the necessary steps to resolve the MIA issue within two years. The

usual linkage of the MIAs to economic and political questions, it is reported, and it was accompanied by release of what Vietnam says are the remains of 14 American servicemen, the largest number repatriated at one time. Has Hanoi made a fresh judgment of the

agreement was reached without any of Hanoi's

worth of improving relations with the United States? Its delivery on the MIA issue will provide a telling part of the answer, as will its response to the diplomatic initiative on Cambodia being taken, with American approval,

From, among other things, the testimony of Vietnamese mortician who fled in 1979, American officials believe that Hanoi has stockpiled the remains of hundreds of U.S. military personnel killed in the war. Such reports underline the burden on Vietnam to meet considerably higher standards of disclosure than closed Communist societies custom-arily allow. If Hanoi hopes to get the full benefits of cooperation on this issue, however, it will have to address the range of American suspicions that its past conduct has stirred.

Other Opinion

The Spreading Unrest in Chile

The six deaths, countless injured and more than 600 arrests during anti-government dem-onstrations in Chile on Wednesday were an unhappy reminder of General [Augusto] Pinochet's ruthless determination to ride out protest. While General Pinochet may draw satisfaction from having survived much longer than his critics predicted, his authoritarian regime now looks increasingly isolated at home and out of step with the trend toward democracy in Latin America.

For almost a decade General Pinochet was able to boast of having restored a sense of stability to Chile, albeit at the cost of political liberty, and to have presided over an imprecedented economic boom. Yet the protest movement, which has grown up in the past two years and refused to be cowed by repression, has put an end to this stability. At the same time, Chile's experiment in free market economics has gone sour through a mix of world recession, falling copper prices, over-borrowing and poor management.

FROM OUR SEPT. 7 PAGES, 75 AND 50 YEARS AGO

LOS ANGELES - Christian Science and the Society for the Prevention of Cruelty to Animals locked horns [on Sept. 6] when the society called for the arrest of Martin Bekins on a charge of cruelty to an animal because Bekins tried the Christian Science treatment on a horse. The horse died of colic. The trial was set for Sept. 27. "I'm doing all I can for this horse," said Bekins, when an officer called on him. "I'm treating it with mental science, I did not employ a Christian Scientist for the purpose of neglecting the horse as has been charged, but because I wanted to give the animal every bit as good treatment as I would want for myself or one of my children."

1910: Mental Science Fails on a Horse 1935: Life in an Eritrean Purgatory' MASSAWA, Eritrea — Writhing from the plateau to this sea coast, where the temperature stands at 120 degrees and no breath of wind stirs, the very rivers curl up and die. There is no life in this smoking sand except the Italian stevedores and laborers who will win or lose the war against Abyssinia. As the port of debarkation of all troops and supplies Musso-lini sends from Italy, Massawa is the purgatory of Fascism and the place to see why Italy cannot stop for any League of Nations. No man could work in such a hell if he were not certain that the Duce will lead him on soon to the green uplands stretching between Asmara and Addis Ababa, to empire and riches.

When Debt Begets Disillusion: The Real Latin Threat

N EW YORK — The United States should be concentrating its attention on the Latin American debt crisis, not on the arming of contras against Nicaragua. The price riots in the Dominican Republic, the invasion of supermarkets in Rio de Janeiro, and the waves of strikes everywhere in Latin America pose a far greater threat to U.S. security than do the

politics of three million Nicaragnans.

Over the past 40 years, Latin America has managed to expand economically and extend certain limited benefits of health, housing and education to its people. The present crisis en-

dangers even those modest gains.
Per-capita production fell by 9 percent last year, bringing us back to the level of 1977 eight years wiped out in one! Prices rose by 163 percent in 1984. The region's foreign debt is more than \$350 billion, yet our export earnings have decreased to \$95 billion a year. Latin America is scheduled to pay more than \$45 billion in annual interest. That means we have become a net exporter of capital to industrialized nations exactly at the moment when we need capital most. It also means there is very little capital left for economic development, and even less for basic social programs. Meanwhile, the middle classes are restlessly

undergoing a revolution of lost expectations. The rural areas are growing increasingly poorer as prices for agricultural products decline. Foreign trade continues its downhill ride. Exports By Carlos Fuentes

from the Third World to the industrialized world declined by \$42 billion last year. The disruption of trade also hits the industrialized world. U.S. exports to Latin America fell from \$38 billion in 1981 to \$20 billion in 1983. This cost the U.S. economy 300,000 jobs.

run the gravest risk of being wiped out. We should be listening to men like Mayor.
Andrew Young of Atlanta, Felix Rohatyn of
New York, Pedro-Pablo Kuczynski of Peru and
Lord Lever of Britain when they argue for a
new Bretton Woods — a new set of monetary Not only the United States, but also the whole world, and certainly Latin America, face what the economist Eliot Janeway has called "a the nature of that debt. In the Lever proposal,

As the middle class undergoes a revolution of dashed hopes, the poor fester in lost cities.' Latin America could explode.

financial Pearl Harbor." pressive sums of money." Mr. Kissinger proposes the equivalent of the Marshall Plan — a hemispheric development program that would replace the "financial minuet" of quarterly crisis meetings on overdue-interest payments. Mr. Castro asserts the debt is unpayable. To prevent the immense damage that national defaults would mean for the international banking system, Mr. Castro proposes that governments of the industrialized nations.

assume the debts owed to private banks.

Mr. Castro has said these things dramatically, capturing the imagination of the housewitthe wage earner, the pensioner, the bureaucuit, the shopkeeper — the menaced middle class of Latin America. The debt crisis has permitted Mr. Castro to re-enter Latin American society on his own terms while the United States plays

on his own terms while the Umited States pays soap operas on Radio Marti.

Democracy and economic progress do not come naturally to a region where the bywords, for centuries, have been political anthoritarian ism, archaic violence, patrimonialist whim, crumb-lifting from the table of capitalism. The future of Latin America, and of the Umited States, depends on economic solutions, not on spy bookiets on neutralizing the Sandinists.

This article was adapted by The New York Times from a speech by Mr. Fuentes, the Mexic

America's Poor Are Still There

By Michael Harrington N EW YORK — The White House cuphoria over the drop in the poverty rate to 14.4 percent in 1984 is deeply disturbing. In cele-brating a statistical "triumph," President Reagan and his staff have

obscured a larger injustice.

Any reduction in the number of the poor is, of course, a reason to rejoice. And that is true even though the event is hardly a surprise. Every expert predicted the 1984 decline in poverty because real economic growth of almost 6 percent in that year would inevitably help some people at the bottom of the ladder. But the administration's simplistic and ideological response to the new numbers — they prove, in Mr. Reagan's view, the superiority of free enterprise — blindly ignores the fact that the poverty rate is now higher than it has been in any year since 1965, with the exception of 1982 and 1983. A one-year improve-ment, from 1983 to 1984, is said to vindicate U.S. economic policies. But there is no comment on the fact that the United States has "advanced" to levels of poverty it reached 20 years ago. This willful shortsightedness is

not new. Shoddy interpretations of statistics have regularly provided a basis for moral indifference and political complacency.

For instance, unemployment

went from a recession high of al-most 11 percent in 1982 to 7.3 percent in October 1984. In the 1984 election campaign, this trend was cited as a measure of the administration's economic success, and one was constantly reminded of the millions of jobs generated by the recov-

Kennedy targeted a 3-percent unemployment rate, or that the Republican Party was savaged by the electorate in the 1970 congressional elections because joblessness had soared to 4.8 percent.

So eight and a half million people out of work, and millions driven from the labor market who are forced to take part-time jobs, are just a fact of social life these days. The most dynamic recovery in 30 years, as the president calls it, has an employment rate which, in the antediluvian age of a decade ago, would have been associated with

a deep recession.

Another example. In 1981, the Congressional Budget Office tells us, the Reagan tax cuts increased the disposable income of houseery. I ew remembered that John F. holds with over 380,000 a year by son declared his war on poverty,

\$8,930 and decreased that of households with less than \$10,000 a year by \$440. That reactionary govern-mental redistribution of income was partly the result of deductions that scriminated in favor of the rich.

By law, the Treasury is required to itemize those deductions in a "tax expenditure budget." How does one deal with such scandalous numbers? The administration simply redefined tax expenditures to make them go down on paper even as they went up in real life. America was turned into a fairer society by a

stroke of the pen.

And now there is the jubilation that there were only 33.7 million poor people in 1984 — which is higher than the number of poor in 1964, when President Lyndon John-

does not simply corrupt American values. It muddles understanding as well. There is growing evidence that economic growth in the 1980s is much less effective in eliminating poverty than it was in the 1960s, that the reshaping of the occupa-tional structure, the technological revolution, and the international-ization of the economy are creating an environment in which poverty is all the more tenacions. And that is a threat, not just to the poor but to all Americans, a fact that corrent ignorant celebration utterly obscures.

This new callousness, however,

The writer, author of "The New American Poverty," and co-chairman of the Democratic Socialists of America, contributed this comment to The

Greenpeace: France Pays the Price of Its Ambitions

P ARIS - Not since the days of de Gaulle has French foreign behavior attracted such passionate and negative criticism from abroad. The sound and fury stem not from a rousing speech or a spectacular decision, but from an intelligence flap that reads like a James Bond movie inter-

preted by Monty Python.

The July 10 sinking in Auckland of a Greenpeace ship that left one man dead, the subsequent arrest of a pair of French agents, and the issuing of warrants against three other French agents have created a major crisis between France and New Zealand.

The French government has acknowledged that it sent agents to spy on the ship but has denied responsibility for sinking it; this was supported by a controversial report ordered by President François Mitterrand and written by Bernard Tricot, a re-

spected former aide to de Gaulle. Beyond the confusing details of the affair, what is at stake is the French image in the world and French interests in the South Pacific. Nothing better symbolizes the event than the contrast between foreign and French reactions. Whereas France has been widely criticized abroad, domestic criticism has been surprisingly weak.

It is worth remembering that most French saw the Watergate affair as a petty matter that should not have led to the fall of a U.S. president. In the flurry of recent spy scandals, the French, unlike the West Germans, have largely rallied behind their secret service, an attitude best exemplified by former President Valery Giscard d'Estaing's statement. "My

card d'Estaing's statement. My country, right or wrong."

Politically, both the opposition parties and the Socialist majority felt constrained in their ability to condemn the handling of the affair. The right, which has little sympathy for environmentalists, could only critical the manner in which the secret cize the manner in which the secret service carried out its assignment not the logic of its very involvement. Rightists had little room, after accusing the government of leniency toward pro-independence forces in New Caledonia, to condemn it for seeming to defend French interests against a campaign for a nuclear-free South Pacific. The French left, traditionally closer to internationalist and moralist stances than to the cold logic of raison d'être, showed its embarrassment. But party loyalty and elec-toral considerations limited its show of condemnation. Legislative elections are due next spring, and the Socialists are hardly the lavorites. Only the Communists - because they are no longer in the government.

By Dominique Moïsi

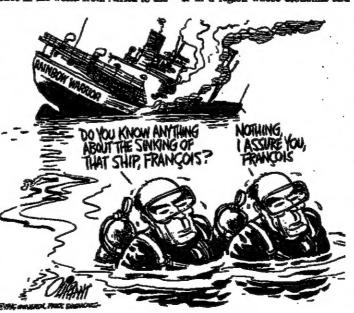

and, some would say, because their Pacific. The South Pacific combines concerns are not primarily French — could firmly condemn the action. There is an additional consider-ation: a French consensus on the need to maintain a presence in the

South Pacific. In its claim to be a middle-sized power, France points out that it has an independent nucle-ar force and that it maintains a presence in the world from Africa to the er in a region whose economic and

these points: It has been France's nuclear testing ground since 1966.

In a time of growing competition between the superpowers and of tech-nological revolutions in nuclear weaponry, nuclear testing is deemed vital by France's government.

The Mururoa atoli testing ground is also seen as a natural aircraft carri-

strategic importance can only grow. With its claim to South Pacific islands and their territorial waters, France can control access to under-sea wealth and a surface 14 times the size of its own national territory. It

has no intention of allowing these islands — including New Caledonia — to fall into Soviet hands. But these reasons are difficult to convey to others. The rise in New Zealand of an anti-nuclear-minded leader, Prime Minister David Lange, and the nuisance value of an internationally popular environmental organization, Greenpeace, contrasts with the weakness of France's own envi-

ronmental movement - and explains why the Greenpeace affair has ech-oed far beyond Auckland barbor. It will be increasingly costly in in-ternational political terms for France to continue nuclear testing on Mururos. (The tests, always open to international scrutiny, have proved to be safe for the small local population, according to an international scientific commission. But the panel's

findings are not accepted by all.)

From Africa to the Pacific, the costs of a high French profile will continue to increase. Behind the Anckland episode lie the elements of an important debate on the future of France's foreign policy and status. .

The writer, associate director of the Institut Français des Relations Interto the Los Angeles Times.

LETTERS TO THE EDITOR

On the Use of the Bomb Regarding the opinion column "No, He Had Other Options" (Aug. 5):

Gar Alperovitz refers to Secretary of State James Byrnes as Mr. Truman's "most important adviser" which in the conduct of the war, he was not. As general of the armies, George C. Marshall was. Mr Alperovitz also contends that "American leaders rejected the most obvious op-tion — simply waiting for the Red Army to attack —out of political, not military concern." This is simply not true. The Russians had been dragging their feet on entry against Japan for weeks and months; dates passed by and there was never any firm assurance until the last moment. John Connor's column on the same page is historically correct. So is the head-

line: "Yes, It Was a Necessary Evil." STANLEY WOODWARD. Salzburg, Austria.

Female Circumcision

Regarding the report "Female Cir-cumcision: A Norm in Africa" (July 29) by Blaine Harden:
Circumcision is too euphemistic a
term to describe the operation usually performed and to indicate the ir-

reparable physical and psychological harm it causes in females. World opinion, the United Na-tions and the World Health Organization should put the greatest possible pressure on religious, medical and political leaders of the countries in-

volved to make them officially condemn the practice of circumcision and infibulation.

wrong. I bring good news. The first
10 amendments and the next 16 haves. not filled your quota. That is, not if you live in my neighborhood and shop at my supermarket, whose walk are graced with a poster proclaiming the "Consumer Bill of Rights."

There, I discovered, you are condowed with certain unalignable.

rights, among which are the right toge "be heard" (above the Muzak?), and "to choose" (and what, faced with 11, varieties of noodle, was I entitled the before the Bill?). These are yours big walking in the door. No social confurcat here. No need to pledge your life, your fortune, your sacred honors. Pick a pepper and you're endowed. Rights have been busting out all.

over and I have started collecting them. A couple of months ago during a hospital stay, I discovered that I was the beneficiary of a "Patient's Bill of Rights," promising all the without in hospitals.

The first thing you notice about the "right to every consideration of privacy" and the "right to expect that within its capacity a hospital must make reasonable response to the request of a patient for services" is the clever drafting: These rights are de-

signed for nonenforcement. I'm not complaining of course, about the lack of rights, but about the pretense. A hospital is a place to get well, and if you want to benefit from the wonders of modern scientific (impersonal) medicine, you have to ex-

sers, will be left at the door.

The proliferation of rights always signals the loss of the individual's powers and prerogatives. It is precise because hospitals have become so stark and impersonal that the poor soul marooned on a bedpan and ring-ing frantically for a nurse is supposed

to make do with paper rights.

All this rights talk is undoubtedly. part of the mania for seeing every-thing in legal, adversarial terms. It is evidence, too, of the faller state of political language. Rights once meant the claims of the individual against the state. In the postwar era, the notion has been stretched to include benefits demanded from the state.

job, medical care, "welfare rights."

Thus stretched, the idea of rights thins. It would be in better shape if, for example, the United Nations (in its 1967 Covenant on Economic, Social and Cultural Rights) and the American Catholic bishops (in their 1984 draft pastoral letter on the U.S. economy) did not insist on calling

economic needs "nghis." Nevertheless, work, medicine, even welfare are legiumate demands: Call welfare are legitimate demands: Cair them supplementary rights perhaps. In contrast, what you find on display at the supermarket or hospital are junk rights. As with junk bonds and junk food, you get what you pay for.

Rights language, however, is not the only political language to be debased. Raids on the exicon of democracy are not new. Take the very mocracy are not new. Take the very-word "democratic." The most unfield governments will not let their unmer-be uttered without making you pro-nounce the word. At Olympics times the TV announcer Jim McKay will respectfully say German Democratics

Republic when he means East Germany. Among the few countries less democratic than East Germany are Cambodia and South Yenen. When the roll is called at the United Na tions, these workers' paradises come under "D," as in Democratic Kampuchea and Democratic Yemen. puchea and Democratic Yemen.
Or take "president," a nice word that once had democratic implications. Haiti has just elected its oxymoronic "president for life" by the comfortable margin of more than 2 million to 449. Which brings up the state of the word "election." Albania held one in 1982 and the official fally was a Communist Party victory of — I kid you not — 1,627,959 to 1.

I kid you not - 1,627,959 to 1. If hypocrisy is the homage that vice renders to virtue, language theft is a

compliment that tyrants pay to democrats. That is what makes the debasement of political language by dictators tolerable. But by supermarkets? Litter the newspapers, the United Nations, the

mism, if you will. But at the frozenmeat department give me peace, not rights. I'll take my chances. Washington Post Writers Group.

month against the U.S. military in West Germany, planted the bombs. The attack occurred near Nohselden, about 30 miles (about 48 kilometers) east of the West German border with Luxembourg.

The site is part of the 32d Army Air Defense Command, which has its headquarters in Darmstadt. On Aug. 8, a soldier was found killed near Wiesbaden and shortly afterward a bomb ripped through the U.S. Air Force's Rhein-Main Base, killing two Americans and injuring 20 people. West German investigators said they believe the terrorists used the soldier's identifi-

cation card to enter the base. Direct Action, a French extremist group, claimed joint responsibil-ity for the Rhein-Main bombing.

Vietnam Official in Moscow

The Associated Press MOSCOW - Defense Minister Van Tien Dung of Vietnam arrived in Moscow on Friday for talks, the news agency Tass reported. The agency said he was met at Moscow airport by Defense Minister Marshal Sergei L. Sokolov.

In Poland, Critic of Regime Ungagged for Vote

By Jackson Diehl

Washington Pair Service
WARSAW — Ever since Poland's military leadership started a broad campaign for sup-port in next month's parliamentary elections, Mikolaj Kozakiewicz has found himself surprisingly in the public spotlight and granted

extraordinary personal rights. An outson ten critic of recent government policies, Mr. Kozakiewicz was named in Au-gust to the presigious "national list" of un-opposed candidates for the Sejm, or parlia-

Since then, his attacks on censorship, con-

trols on education and tougher criminal laws have been covered by Poland's official news organizations with an enthusiasm that has left the 61-year-old sociologist slightly bewil-Even Rzeczpospolita, the official govern-ment daily, granted him ample space when he lambasted the Movement for National Re-birth, known by its Polish initials, PRON, the

Communist-controlled front that nominated him to the parliamentary ticket. "The only explanation is that I am repeating some attitudes that are well known in the

country," Mr. Kozakiewicz said. "Perhaps I

was chosen to represent these attitudes." In almost any other Eastern European country, such a concession to dissident views in a parliamentary election would be almos inconceivable. But in the context of Poland's political struggle, Mr. Kozakiewicz has be-come less a symbol of liberalism than a token.

For three years, he has been a leader of a substantial movement of moderates who believe that a program of aggressive political and social reforms is needed to bridge the gulf between Poland's Communist authorities and a society alienated by the suppres-sion of the independent trade union Solidari-

Now Mr. Kozakiewicz says the change he sought has been smothered and its proponents reduced to dissidents powerless to prevent a trend toward national polarization. "We are moving further from the ideals of

1980 and 1981, rather than closer," he said. "We have in Poland a split society, and the government is deepening this division." In preparing for the elections, General Woiciech Jaruzelski's government has ap-

other critics say. The government's frustration comes from the fact that all actions from its side to increase social consensus have no effect, said Bronislaw Geremek, an opposition historian and adviser to Solidarity. "So what can they do to get national support? The only solution is to try to introduce the feelings of

uncertainty and fear. Weeks before the election campaign, the

'We have in Poland a split society, and the

government is deepening

this division.' Mikolaj Kozakiewicz

government introduced measures that reversed a liberalization of university govern-ment, toughened the penal code and eliminated the prospect of multiple unions at the

factory level. A year after a general amnesty emptied jails of dissidents, three top Solidarity leaders were given jail sentences, and the number of political prisoners rose to more than 230. The government spokesman, Jerzy Urban, was quoted recently as saying that such mea-

sures were "a kind of retreat on what was a bold attempt to move forward." In a speech to a Central Committee plenum called to plan election strategy, General Jaruzelski conceded: "The last few months have brought a number of moves that were

not easy to receive by some milieus."

will not forget a struggle against what ham-pers and threatens it, a struggle first of all with political means, but also with means of protection of state order, if necessary." In response, the banned Solidarity trade movement has called on Poles to boycott the

voting Oct. 13. After a similar campaign by

the union last year, the government reported

He continued: "The party does not and

peared to prefer repression to efforts to win over the disaffected, Mr. Kozakiewicz and below the norm for elections in Communist

Both sides noctray the uncoming elections as a major test, and many Poles seem to be stranded between the two sides. Official polls have shown that a substantial majority of the public disapproves of government policies. But Solidarity's strike efforts and other pro-

tests this year have failed.
It was this disaffected mass that Mr. Kozakiewicz and other moderates in and outside the party boped to reach after the declaration of martial law in December 1981.

"My whole activity is directed at the search for a modus vivendi between the opposition and the so-called establishment," he told Rzeczpospolita. Mr. Kozakiewicz, a teacher and prolific

author who had been a member of the offi-cially sanctioned Peasant Party, was one of unders of PRON, an organization promoted by the government as an independent social movement for reform. We thought and dreamed that PRON would be an agent of systematic change in

Poland, a kind of not-so-aggressive form of Solidarity." he said. Slowly, however, its original aims were diluted and its nominal independence proved illusory. As Mr. Kozakiewicz put it: "PRON

became an element of the system, not an indecendent side ' The election has been one of the sharper reverses to the hopes of the moderates, who had hoped the authorities would allow voters

a real choice on ballots. Instead, the electoral law approved by the outgoing Sejm provides for nominal twocandidate competition for 410 of the 460 seats but leaves control of the election and the choice of candidates to the Communist

After failing this summer to enlist a group of independents close to the church for the candidates' list the authorities presented a selection that includes more nonparty "independents" than in the past but offers scant variety. The most notable independent in the previous Sejm, Edmund Osmanczyk, was ex-

CAMPION SCHOOL ATHENS, GREECE

NEW BOARDING HOUSE

Campion is an international co-educational school with 900 pupils aged 3-18, offering preparation for universities world-wide, but particularly those in Britain and the U.S.

The school admits pupils of any race, colour, ethnic origin or nationality and is situated in one of the safest and educationally most interesting cities in the world.

The new boarding house is in a green suburb conveniently close to the school buildings. The resident house-mistress, her family and staff, together provide a home atmosphere in food and amenities, ranging from central heating to spacious common-rooms with colour TV and video. All boarders are accommodated in single or double study-bedrooms with private bath-rooms.

ARTS/LEISURE

Man Who Changed Chicago Skyline Looks at Urban Problems

By Michael Gibson International Herald Tribune

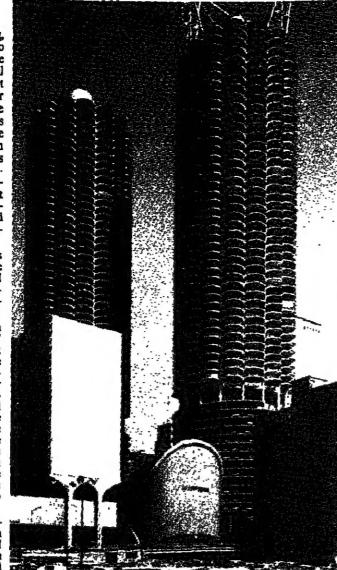

DARIS - Bertrand Goldberg. T72, is one of the architects who has most contributed to shape the Chicago skyline. His two central high-rises, the Marina City project that went up on the Chicago River in 1962, have been dubbed the "Corncob Towers." The buildings were so novel and notorious in the 1960s that Goldberg's children were known to their classmates as "the Corncob kids."

Today he is working on a \$500million, privately financed project known as River City, which is go-ing up in the Chicago's freightyard and in four or five years will provide housing for 10,000 people.

An exhibition devoted to his work (some 120 projects since the beginning of his career) has opened at the Paris Art Center, and Goldberg was in the city for the occa-

"We are in gigantic trouble with what we call the urban problem." he said. "No one knows quite what to do about the fact that cities are disintegrating throughout the in-dustrial world. The city is no longer a manufacturing center. Management moved out of the city and took the factories with them. One reason for the move was that the workers are easier to manage in the suburbs where union organizations can't reach them. This leaves the city as a white-collar center and the question arises whether there is enough employment available to absorb the full city population."

Also, he said, the city has become the center for the distribution of welfare. Poor people from rural sections have moved in to obtain health services and what he called "the goodies that the various governments promise." As a result the city no longer functions as an important center for intellectual deelopment, invention and maufac-

porting the city rests on much few- middle class has largely moved er people," Goldberg said, "which away." is why it has become a place for the very rich and the very poor. The meet the challenge that the situa-

Chicago's Marina City: the "Corncob Towers"

is to build in ways that tend to favor the formation of a community. This implies a grouping of utili-ties and services, and also, quite simply, it implies taking human needs into account and not just the abstract human entity for which a Le Corbusier, for instance, so often appeared to be building.

Goldberg takes obvious pride in the fact that the Raymond Hilliard Center, which he built in Chicago in 1966 is "the only housing for the poor in which the police have not been required to come in and keep order." Why? Because, he believes the architecture itself is a message to the people who live there, and the message is that their humanity and individuality is respected by the architectural concept.
"You do not have to live in a box

designed for the 'standard poor hu-

man being," Goldberg said.

This message is inherent in the overall departure from the rectilinear canons of the Bauhaus (where Goldberg studied under Mies van der Rohe in 1932), but also in variations within each unit - variations in light, color and the angles of the walls, in the way family groups and elderly groups are integrated as well as in a number of other as-

Goldberg's big projects combine housing, recreational facilities, offices and services (and a marina. when possible) in a way that had at one time been against the law in Chicago. The law had to be changed when he wanted to build his Marina City (the "Corncob Towers") in 1962, and the U.S. government also had to be persuaded to give federal housing insurance to families living in the center of the city. Now the city regulations actu-ally require the blending that they once forbade. Marina City was the first "mixed-use" housing to be built in the United States.

Population density in a given the modern architect working on from the Granet Museum.

player in the art market.

F ORT WORTH, Texas — The story of how the

Kimbell Art Museum acquired a major painting by the 17th-century French artist Nicolas Poussin

shows how a young institution has become a major

"It's a coup to get any Poussin. His paintings are extremely rare," said William Jordan, chief curator

and deputy director. The Kimbell acquired "Venus

and Adonis" at the end of April for about \$1 million.

"It's more than just an acquisition for the Kimbell.

It's a rediscovery of an early composition," said the

In May 1984, Pillsbury spotted the painting, done between 1625 and 1628, in a diraly lighted basement at Christie's in London. For years, a major Poussin had

When Pillsbury first saw "Venus and Adonis," it was dirty. Furthermore, in 1966 the British art histori-

an and Poussin scholar Sir Anthony Blount had writ-

ten that the painting was done by a Poussin imitator.
Pillsbury didn't believe it. "It looked as if it was by

Poussin," he said. The question had to be resolved, but

inquiries of by a major buyer such as the Kimbell can

museum's director, Edmund Pillsbury.

been on the Kimbell's wish list.

Bertrand Goldberg

this scale. "We have to take into account the realities of the transportation systems, of collecting garbage, of supporting educational systems," Goldberg said. "Even the cost of maintaining central grocery stores that afford you the economy of supermarkets requires that you rise buildings, but says he will have \$250,000 of business every move into River City for a few week. That means a minumum of 2,500 families. And if you want to is designing) is being built. He and layor competition by having two his family have lived for more than supermarkets, you would have to 30 years in an early 20th-century double that figure. Which raises the house near the center of Chicago, question: Can people have a conveone he did not design — partly out nient life if they are sprawled out so of deference to my wife and family, far that they need two cars at least, so that someone can go to the gro-cery store during the day? What we alone. are doing now is trying to find a Bertrand Goldberg, Paris Art

Post-Modern architecture, which in his view, "has its roots in disappointment — a disappointment in the premises which the modern movement made and failed to deliver: that of an urban design which would favor democracy and an equal and better life. As a result we have become rather frivolous in our architectural forms." He said he had his own roots "in the serious period in Germany - the Bauhaus. And maybe I am an old fogey in that I believe in a better social order and a better world."

Goldberg was directed to the Banhaus as a graduate student at Harvard. He spent only one year in Berlin (the Nazis closed the school in 1933), but this experience seem to have been decisive.

He also studied painting under Kandinsky, whom he found dog-matic and insufferable. Joseph Albers, on the other hand, "taught me how to see," said Goldberg. Albers became a close friend.

Goldberg does not live in a highyears while his new home (which he

He had the painting sent to the conservation labora-tory at the Metropolitan Museum in New York, where

X-rays showed that the composition had been changed

while the work was in progress. This demonstrated, Pillsbury said, that a "thinking artist" had been at

In addition, Pillsbury did not think it would be

A cutout by Catherine Schmidt, from show in Bulle.

Swiss Paper Cutout Art On Display in Gruyère

By Mavis Guinard ULLE, Switzerland - The B first Swiss exhibit of paper cutouts in the attractive museum of the cheesemaking region of Gru-yère shows, through 90 contempo-rary artists and 400 découpages,

that this folk art is flourishing The artists use tiny scissors and Swiss precision to shape silhouettes of animals and trees, and each snip

"It can be even more difficult to paste down the lacy designs into place," said Anne Rosai, whose nave, colorful pictures hang in many chalets and hotels of the Gstaac Schonreid and Chateau-d'Oex area and were shown in an international exhibit of the craft at the Cooper-Hewitt Museum in New York.

Rosat likes to portray the traditional mountain life of an area that. despite its jet-set resorts; sticks to local ways. Rosat became fascinated with the works of two past masters of the paper-cutting craft: Ja-cob Hauswirth and Louis Saugy.

possible to finish researching the painting by the July 6, 1984 sale. "So I decided that I would do what I have The first lived in the forests firing charcoal. Whenever he turned done in several cases: I would follow the picture, I up in the villages, he used his cut-outs to trade for a meal, a night's The day after a group of dealers bought the painting jointly for \$365,000, Pillsbury telephoned to one of lodging or a few sheets of paper from the store. them. "I said to him: I want to reserve the Poussin. We

They say he would use any small scrap be could find, pouncing on candy wrappers for the colors he needed. said Rosat. "He had to hold his scissors by wire loops, for his fingers were far too thick, but he invented most of the scenes that are familiar today: the procession of cows winding up to high pastures, rigid cheesemaking or hunting Pillsbury was now sure he wanted the painting: "So I basically went to the dealer and said, "I think I want to buy it. How much?" The bargaining was scenes above, villages below with

resolutely closed portals." But the price was considered a bargain. The last Probably inspired by Hauswirth time a major painting by Poussin was sold, in 1981, the Getty Museum paid \$3.7 million, Pillsbury said. Louis Saugy was an extroverted ley. He delighted in describing vil-lage festivities and filled the scenes with lively action. Where Hauswirth's pine trees are straight and somber, Saugy's bend to the wind. or the woodcutter and bear season-al fruit and flowers.

Rosat, too, likes to describe scenes from her village and use the motifs that appear on Swiss paint-ed furniture, centering on full-blown bouquets of stylized roses, carnations and tulips with a happy

Newer artists are moving away from these traditions somewhat. Few go quite as far as Catherine Schmidt, who fashions cutouts with fantastic animals, or are as talented as Ernst Oppliger, a litho-grapher, who crams his swirling de-signs with biblical scenes or spools

the sacred Swiss cow. A school in Winterthur is attracting people from all walks of life to the folk art. Though most are art-ists or teachers, an art historian, a carpenter, a seamstress and several are employing tools used by graph-

Wealth of Buddhas At British Museum

By Max Wykes-Joyce

I ONDON — "Buddhism: Art
one at the center, the others at four
corners of the earth
The one who found the most
favor in Tibet was Aksobhya, the the 422 exhibits forming an anthology. The magnificent exhibition is drawn almost entirely from the museeing's collections and from the

The chibition and catalog are thirded geographically after introducing groups on The Buddha Legard, which consists chiefly of carved stone reliefs from Gandhara, and The Scriptures and Their Transmissions, a rich selec-tion from the library's manuscripts. Among them are a late 18th-cen-

iny Barmese manuscript of Buddha's first lecture in Pali, on palm leaf, oth-century Chinese scroils of "Rules for Monks," 18th-century Tibetan translations of a 5th-century Indian commentary on the scriptures; a colorful illustrated book from mid-19th century Burma, portraying "the previous lives of the Buddha"; and Japanese scrolls in fine calligraphy dating from the 16th and 17th centuries.

Siddhartha Gautama, who lived from about 563 to 483 B.C., was a rich young man of a princely family in the kingdom of the Sakyas, on the borders of present-day Nepal and ladia. At age 29, he left his wife and children in their palatial home and wandered India in search of enlightenment. This he is said to have achieved under a sacred tree at Bodh Gaya six years later. Thereafter, at least in Buddhist scriptures, he is more often than not referred to as the Buddha, or Enlightened One.

At Sarnath he lectured to his first five disciples. He traveled India teaching rather than preaching of the ways of Enlightenment. When he died at Kasia, formerly called Kusinagara, in the northern prov-ince of Bihar, he was cremated and his ashes divided among the eight chief Buddhist communities, where Mey were preserved in stupas

From India, Buddhism spread to become the dominant religion in Pakistan, Nepal, Sri Lanka, Burma, Thailand, Java, Central Asia, China, Korea and Japan. In each of these territories it assumed a slightly different face, and even images of the Buddha assumed a "local"

appearance, as may be seen here.
The sections of the exhibition provide an overview of each re-gion's sculptural styles. For examole. Tibet embraced a rather lierce form of Buddhism, in which proselytication was represented by the

favor in Tibet was Aksobhya, the Eastern Conqueror, who over the years lost the Indian aspect of his origins and became more typically Tibetan, as in a 14th-century brass figure that has been remounted on a much later stand.

early imagery. Buddhism having reached that part of India about 200 years after its founder's death. Among the many southern Indian images in the exhibition, the most perfect spiritually is damaged, lacking the left hand and forearm but this in no way lessens the serensembles a certain style of bronze sculpting going on at the same peri-od — the 7th and 8th centuries —

would expect a fine selection of Buddhist sculpture, but it excels in the ink and color paintings on silk dating from the 9th century. Many of the silk painting were found and brought to England by Sir Aurel Stein, from the Dunhuang caves in Gansu province, the famous "Caves of the Thousand Buddhas of Tun Huang." Of the Buddhas in the exhibition, none is more power-ful than Vaisravana, the guardian deity of the north. He is patrolling his domain, borne above the waves of the sea on a purple cloud. In his hands he bears his two attributes in the right, the golden halberd of his office; in the left, encased in a smaller purple cloud, a stups en-shrining the seated Buddha. Before him walks his sister Sri Devi proffering a golden bowl of flowers. The colors of this painting are indescribably subtle and varied. In-

sculpture, which need occasion no surprise, since it was from China, via the Buddhist kingdom of Packche in Korea, that the art of sculpture reached Japan. A large gilt Buddha arrived in the form of a gift, from the Korean king to the Emperor Kimmei, in the mid-6th

capital city, founded by his aunt, the Empress Suiko — the center of early Buddhist art and architecture, which it has remained. The Buddhist component re-mained strong in Japanese sculp-ture for many centuries, as witness

the lacquered and painted wood portrait sculpture (c. 1700) of a lay follower in Buddhist priestly guise; and the votive wood sculpture portrait made by Miwa in 1788 of the artist Sesshu (1420-1506), who became a Zen Buddhist monk.

As Victor Harris observes in the catalog notes on Sesshu: "His ordination as a Zen monk occurred when Zen Buddhism was the main force behind traditional schools of painting, poetry, fencing, the No theater, flower arrangement and the tea ceremony."

By way of the tea ceremony, all civilized Japanese have ingested the aesthetic and philosophical values of Zen Buddhism. And the contemporary cult of Zen has imparted a new worldwide significance to the Buddhist faith.

Von Solodkoff and von Habs-

reference book, "Fabergé, Court Jewellers to the Tsar," published in 1979. Last year von Solodkoff, who was asked to catalog the Forbes collection, was the main contributor to the book published for the Forbes collection's exhibition in New York, "Masterpieces from the House of Faberge." Few people — except A. Kenneth Snowman of the Wariski gallery in London, who has been tackling the subject for 30 years as a dealer, collector and scholar - have greater experience in Fabergé and related matters. Yet von Solodkoff admits in his latest book that the profile of Faberge art

is elusive. Fabergè is the name of a firm begun in 1842 as a jewelry shop in int Petersburg, now Leningrad. The founder was a German of Huguenot descent whose family had settled in one of the Germanized cities of the Baltic sea. Pernau in

Mercedes 770K limousine once er. He made the 1892 Diamond owned by Hitler went unsold at the 15th annual Collector Car Auction here because the top bid, \$50,000. did not meet the reserve.

Estonia, part of the czarist empire. the crosscurrents at work in the The Germanic background and the Baltic connection were to remain German art school in Saint Peterspermanent features of the firm. Carl Faberge, the man who turned for applied arts. He then became to objets d'art, was baptized at a workmaster at Faberge under the Protestant church in 1846 in Saint tutelage of Anders Nevalainen, a Petersburg, and on taking over the family concern in 1870 left for Germany, Switzerland and France to study art. As his father had done, he married a German woman from

the Baltic area. And Carl's younger brother Agathon was studying in Dresden when he decided to join the firm in 1882. The most significant feature of the foreign makeup of the compahowever, is the background of

cow and whose marks appear on precious-metal objects next to the firm's mark. Out of 45 such craftsburg wrote what is now a standard carries a truly Russian name, Fedor Afanassiev. Two have Russianized names — Andrej Gorianov, who was unimportant, and Michael Perchin, who was born in Finnish territory. The other workmasters are Finns, Swedes and Germans, except for a Russian Jew, Julius Rap-poport, whose education and culinral orientation was Germanic. The Scandinavian contribution,

is enormous. It was made by members of the century-old Swedish community in Finland and by Finns whose cultural allegiance was entirely to Sweden even after nearly two centuries of Russian occupation. They include many of the most important names in the firm. Victor Aarne (1863-1934). born in Finland, was a Faberge workmaster from 1891 to 1904, then opened his own workshop in Finland, August Wilhelm Holmström, born in Helsingfors, as Helsinki was then called, was a senior AUBURN, Indiana - A 1934 member of the firm and head jewel-

> Trellis Egg. The career of Karl Gustav Hjalmar Armfeldt (1873-1959), born in Finland, offers a typical pattern of

burg and at Baron Stieglitz's school tutelage of Anders Nevalainen, a enameled frames for photographs.

Holmström's daughter Hilma Alina worked as a designer for Faberge, while another daughter mar-ried the workmaster Knut Oskar Pihl. They were arruned to the Russian upper class and determined to cater to its tastes. These were westernized as far as decorative arts went, with a predominant interest the workmasters — the craftsmen in the French 18th century — or, who headed workshops in various parts of Saint Petersburg and Mosperations of it — and a certain inclination toward North European art. At the same time intense nationalism, stemming partly from men listed by Solodkolf, who gives a strong inferiority complex to-short biographical details, only one ward, Western Europe, made it desirable to give any luxury produc-

tion a vaguely Russian appearance. All marks and signatures were struck in the Cyrillic alphabet and subject matter was drawn from Russian life. The Orthodox custom of painting eggs at Easter inspired Carl Faberge with a stroke of ge-nius — to have eggs made of precious materials and set with stones as luxurious Easter presents.

which has been much underrated, Von Solodkoff plausibly speculates that Faberge, who had access to the treasury of the Hermitage, got the idea when he saw an incens burner made in the shape of an egg by the French goldsmith Jean-Jac-ques Duc for Catherine the Great in about 1770. Moreover, enameled gold and silver-gilt eggs, opening to reveal a jewel chicken inside, were traditional in Germany and Austris in the mid-19th century. In any case, the first "imperial egg" -produced in 1885 and now in the Forbes collection — was a tremendous success. The eggs, which be-came ever more complicated and luxurious in appearance, have remained ever since the most desirable type of Faberge object in the eyes of the handful of millionaires who can afford to compete for

Fabergé frog capitalized on Russian love of nephrite.

them. The record is held by the 1900 egg sold to Malcolm Forbes at Sotheby's in New York in June for \$1.76 million.

Another great success was the host of Russian peasant figures handled in a style that, regrettably, owes as much to German 19thcentury kitsch carving as it does to the indigenous Russian peasant woodcarving tradition. Along with the Russian peasants came a whole menagerie of animals from the Russian countryside, sows and pig-lets, mice, storks. Faberge capitalized on the Russian love for green stones, such as jadeite and nephrite

—a taste acquired from the Islamic Middle East, including the large parts of Iran occupied by Russia in the 19th century. He also drew his inspiration from the Japanese netsuke, of which collections were being formed in mid-19th century

Page 9

This resulted in a Disney-like wonderland of animals in semi-precious stones, which became a third staple of the Faberge firm. Last but not least were the thousands of objects in derivative Louis XV and

Louis XVI style.

The diversity is bewildering. To create a given style was never intended. Von Solodkoff is the first to have emphasized the fact that "Faberge's production deferred to the changing fashions." He quotes from Faberge's Moscow list of items for sale in 1899—"The products of our firm are frequently renewed due to the bizarre demi of fashion: new objects are offered for sale every day. Some of our best objects cannot be published be-cause we fear they will be imitated by our competitors."

And they were. The problem of authentication is often insurmountable when a piece is not fully documented. Workmasters left the firm and set up on their own. After the 1917 revolution some set up in the West, and their work is no longer considered authentic Faberge. imitation of an "art" that is entirely derivative is not difficult, unless precious materials and stones are involved, such as the Easter eggs. which are mostly documented any-

way. The problem was acute enough by the early 1930s for the former manager of Faberge's London branch to write an article titled "Particulars which will assist collectors to confirm the genuineness of Faberge pieces."

The pieces least open to ques-

tion, aside from those whose history is closely documented, are silver and gold objects with Russian marks from the pre-revolutionary days. But there is no such luck for the Russian peasants and flower sprays, nor for the Faberge Mickey Mouses now so popular in the

The Shopping Bag as Museum Art Object

ONDON - An exhibition devoted entirely to the L shopping bag is filling the Boilerhouse space at the Victoria and Albert Museum.

The ordinary plastic or paper bags were selected from five cities around the world. There are towers, tiers, suspended walls of bags, blazing in vivid colors and arresting designs, some trumpeting the names of famous stores in big type and some showing no names

"We've hung about 500 bags," a gallery spokesman

said. "That's almost twice as many as we intended, but it was just too hard to leave some of them out.

Visitors will be asked to complete the show: One wall has been left vacant for them to contribute bags. Stephen Bayley, director of Boilerhouse, said that "the merchant's free hold-all" had "become an international symbol of the consumer."

The catalog makes an attempt to describe how a bag from London or Paris differs from those from New York or Tokyo or Milan.

Cinematic Triumphs Are Few at Venice Festival

By Thomas Quinn Curriss International Herold Tribune VENICE — Alarm spread

among the guests of the Venice nately, the film accompanying her visit — Panelis Voulgaris's "Pening through a seven-hour screen wilm festival at the prospect of sitting through a seven-hour screen transposition of Paul Claudel's play "Le Soulier de Satin" (The Satin Slipper), even though the pro-jection was to be divided by a din-

In large measure, however, the experience was rewarding. The eloquence of the text caresses the ear, and the lavish costumes and decor. lending an impression of Renaissance paintings gently animated, delight the eye.

In a joint cultural venture by France and Portugal, the Portugaese director Manoel de Oliveira has stylized Claudel's genetically static dramaturgy. The members of his Parisian cast rarely face one another in conversations. Instead they gaze dreamily straight at the camera, reciting their lines as though inspecting the house.
The vicissitudes encountered by

dashing knight Don Rodrigue take frequent geological jumps—from Madrid to Mogador and to the Balearic Islands—but his travels are from set to set. The result is a theater staging, competently per-formed, recorded with a resolute avoidance of the filmic. In this almost uncinematic form, the majesty, grandeur and lofty language of

the source have been preserved.

Agnès Varda, a new wave pioneer, returns to anteurship with

Sans Tolt ni Loi" (Roofless and awless), a lament over the fate of a defiant girl tramp in southern France. Its hippic-esque philosopy and approach are those of the rde cineastes of the 1960s, of which Varda was one.

She has accomplished what she stie has accomplished what soe set tout to do, but the film has a difficult look, giving us yesterday with yesterday's viewpoint. Sandane Bonnaire is the wayward lass socking through mud and cold in har personal revolt against the system. It is as though a 20-year-old limithad wandered into the 1985

Manrice Pialat, who made the amissing "LonLou," with its happy, interponsible pair of ne er-do-wells, now delivers "Police," yet another portrait of a cynical cop hunting draw draw delivers and the policy of the property o down drug-dealing gangs.

The gang members are intro-duced in the program with the sort

onced in the program with the sort of description once employed on inelbdrama playbills. The policeman: "Looks like a nice guy, but when he blows up he gets mean and haspy." The fast girl: "She always had can't remember a time she The lawyer: "All his clients are jointy, he's sure of that." One expects the inclusion of the burkeying show aliases — Lotta Jazz, from B. Good Fuller Prunes and "Will B. Good" to follow. Gérard Depardieu is the star, looking like a nice guy and

often blowing up.

Melina Mercouri, the Greek cul-ture minister, came to promote her country's film industry. Unfortuis a bad one, an interminable chronicle of the prison sentences that separated a Communist couple

until the present regime was elect-Jerzy Skolimowski's "The Light-ship" is a gripping thriller about terrorism. A murderous paranoiac and his two goons, rescued from a disabled motorboat by the lightship's crew, threaten to take over command. It is exceptionally well played, with Klaus Maria Ban-daner as the captain, at first suspected of cowardice; Robert Duvall as the ruthless maniac; Arliss

chael Lyndon as the skipper's dis-

additional cutting would aid it fur-

(Life is Marvelous), from Yugoslavia, is a tantalizing puzzle. Its setting is a railroad tavern in a whistle-stop village. A drunken sadist insults the passengers who gather there, and in the finale guns them

journeying through what resembles Siberia in January to the deathbed of their father.

Howard and William Forsythe as dim-witted paid killers; and Mi-

An instance of constructive criticism may be cited in the rapid improvement of the Argentine entry: Fernando Solanas's "Tangos — El Exilio de Gardel," which retraced the life of Carlos Gardel, a composer of tangos, and focused on political exiles from Buenos Aires who prepare a benefit in Paris. The press, attending a preview, ex-pressed some admiration for the film but mentioned that it ran on for so long that it seemed to require two people to see it all. For the official public screening it was trimmed by about 10 minutes, and

From Japan has come Masaki Kobayashi's "Shokutaku No Nai Je" (House Without Dinner Table), in which a son's terroristic activiin which a son's terroristic activities brings disgrace and tragedy to
his family. It holds a sterling performance by Tatsuya Nakadai as
the humiliated father, but it, too, is
excessively long and tends frequently toward sentimentality.

Boro Draskovic's "Zivot Je Lep"

Utife is Marvelous), from Yuzosla-

down. According to the program, the script is an allegory with the tavern being the world in minia-The grotesque happenings in the Dutch entry, Orlow Seunke's "Pervola" (Tracks in the Snow), are similarly bewildering, with an Amster-dam cabaret clown and his dishonest stockbroker brother

Alberto Bevilacqua's "La Donna Delle Meraviglie" (Wonderful Woman), from Italy, and the Belgian "Dust," directed by Marion Hänsel, have high ambitions. The first is a moody psychological study of a disturbed, middle-aged

scribbler plotting a scenario while recalling his amorous past and, evidently, Fellini's "8½." The second is an effort to do something in the nature of a stark O'Neill tragedy with Jane Birkin as a spinster on an isolated South African farm who murders her lather (Trevor Howard) for his seduction of his fore-

man's black wife, then goes mad.
Juraj Jakubisko's "Fran Holle," representing Czechoslavakia, is a metry nursery tale, with Giulietta.

Masina impersonating a fairy godmother who guides an orphan boy to find love and happiness. It is presented in competition, but its

didates — "Tango Nasego Detstra" (Tango of Our Childhood) and "Parad Planet" (Planets in Conjunction) - reveal that the Russians occasionally fall into commonplace moviemaking as well. Paul Morrissey's "Beethoven's Nephew" had its world premiere at

proper place would be in the "Young Venice" department, which the festival's director, Gian Luigi Rondi, created for young viewers. Their diet has been preferable to the indigestible adult fare. The Soviet Union's official can-

a special, out-of-competition pro-jection. Wolfgang Reichmann stars as the composer and there is a re-

served and effective characteriza-

Prinz. The script is patchy, but the film is distinguished by its period flavor, and its powerful score.

John Huston's "Prizzi's Honor,"

a slick and sardonic black comedy about the members of a Brooklyn Mafia gang double-crossing and triple-crossing one another, is a lively circus in the seasoned Hollywood manner. Jack Nicholson and Kathleen Turner enact its principal

roles engagingly.

The best films of the festival have been out of competition. Certainly the top cinematic achievement of the session has been Kon Ichikawa's "Biruma No Tategoto," a remake of "The Burmese Harp," with "Idi I Smoth" (Come and See), a Soviet-made film by Elem

Varda's "Sans Toit Ni Loi" was named winner Friday of the Golden Lion, the top prize at the Venice film festival, according to The Associated Press.

Klimov, as a strong second. French Film Takes Prize

> The festival jury awarded a spe-cial prize to the Argentine film "Tangos — El Exilio de Gardel." Departien was named best actor for his performance in "Police." The 11-member jury decided not to give an award for best actress.

NEW YORK —A drop in the August jobless rate spurred a stock market rally Friday that crased the losses of the three previous sessions.

The market opened higher, consolidated its gains and embarked on a second climb in afternoon trading. An hour before the close, the Dow Jones industrial average was up more than

The Dow finished the day up 9.86 to 1.335.69. For the week, the Dow edged up 1.68 points. Broader market indicators also moved higher. The New York Stock Exchange index advanced 0.50 to 109.05. Standard & Poor's 500-

stock index climbed 0.97 to 188.24. The price of an average share jumped 16 cents.

Advances outpaced declines by a 4-3 ratio.

Volume totaled 95 million shares, up slightly from 94.5 million Thursday.

Analysis said the market was drawing strength from the unexpectedly sharp 0.3 percentage point decline in August unemployment. They said it had given investors the first solid sign of a stronger economy in the second half of the year.

Analysts said blue-chip issues attracted buyransysts said blue-chip issues attracted bying. Stronger airline issues helped lift the Dow
transportation index 5.03 to 677.55.

Beatrice Cos. was the most actively traded
NYSE-listed issue, up % to 33%.

Revion Inc. followed, down % to 43%.

Chemical New York was third, unchanged at

39%.

MCA was the day's biggest gainer, climbing 5½ to 69½ on a rumor RCA would acquire MCA's film library.

Richardson-Vicks jumped 3½ to 40 on a takeover rumor. The company declined to comment on the stock's activity.

124 112

Monsanto was the session's biggest loser, losing 14 to 49% after a Utah State University study found Nutrasweet may cause brain irregularities in mice. Nutrasweet is made by G.D. Searle, which has been bought by Monsanto. Technology issues strengthened. IBM added % to 129%, Digital Equipment advanced 2½ to 106. Cullinet Software added 1½ to 17%, Data General 1% to 39% and Honeywell 1½ to 63%. Some utilities were actively traded. Iowa Electric Light & Power eased % to 20%, Kansas Gas & Electric rose % to 15 and Middle South Utilities added % to 10. Utilities added % to 10.

Among other actively traded stocks, Unocal fell % to 30. General Development Corp. was hanged at 13%.

Avon Products eased % to 24 after advancing Thursday when it said it will buy back up to 25 percent —or 20 million shares —of its common stock in the open market. Airline issues, which have been under pres-

sure this week, recouped some losses. AMR Corp., the parent of American Airlines, added 1 to 44. Northwest Airlines rose 1/2 to 571/2. UAL Inc., the parent of United Airlines, gained 11/4 to 531/4. Pan American World Airways edged up 1/2 to 71/4 and Eastern Airlines increased 1/4 to 101/4.

Blue-chips were gainers. IBM added % to 129%, General Electric % to 61%, AT&T % to 21%, U.S. Steel % to 30 and American Express 1% to 42%. Union Carbide advanced 1% to 55%. After reporting sharply higher sales for the last 10 days of August, the auto companies moved ahead. General Motors jumped 1% to 69. Ford 2: to 44% and Chrysler % to 38.

Prices were mixed and little changed in moderate trading on the American Stock Exchange.

Growing Private Debt Poses Decline Threat in Several U.S. Areas

By LEONARD SILK

EW YORK — The huge expansion of private debt of recent years poses a threat to the financial health of major sectors of the U.S. economy. The most immediately threatened sector is agriculture — and the banks New York Times Service that have lent heavily to farmers.

The Farm Credit Administration now has 402 farm banks on its problem list, and the entire Farm Credit System is facing a potential debacle that could deal a heavy blow not only to the farm economy but also to the national economy and banking system. Farmers owe their creditors a total of \$213 billion. A critical issue facing the Reagan administration is whether to

ls agriculture

only the most

conspicuously

endangered sector?

prepare for what could become a bailout amounting to tens of billions of dollars in bad loans, if the depression in agriculture continues.

But is agriculture only the most conspicuously endangered sector resulting from the debt explosion? Nonfinancial business corporations have

a coming September

Fest

also been increasing their debts at a rapid pace.

A study by the New York Stock Exchange notes that 1984 was characterized by an outbreak of "mergermania" with the retirement of an estimated \$84 billion to \$100 billion worth of equity in merger exchanges of debt or cash for equity.

Although \$12 billion in equities were issued in 1984, one of the

biggest years ever, the corporate-equity base declined by at least 572 billion. Mergers, or canceled mergers, last year offset all the equity financing of the previous half-dozen years.

Some economists fear that debt-financed mergers and leveraged buyouts withdraw credit from the rest of the economy. But Henry C. Wallich, a member of the Federal Reserve Board, argues that such fear is misplaced, and maintains that such operations do no more than reshuffle assets. The real danger, in his view, is the resulting change in the balance-sheet structure of corporations, causing a deterioration of their debt-equity ratios.

ENRY Kaufman, executive director and chief economist of Salomon Brothers, interviewed by telephone in Lon-don, expressed his anxiety about the weakened financial base of corporations.

"In the past year and a half," he said, "the outstanding equity of nonfinancial corporations shrank by \$53 billion, but the debts of the same corporations increased by more than \$250 billion." The Fed's flow of funds data show a net increase of nonfinancial corporations' debt by \$256.9 billion in 1984 alone, bringing their net outstanding debt to more than \$2 trillion, more than double its level in 1977. Their short-term debt has soared to 51

percent of their total liabilities. Just how dangerous is this situation? Some economists contend that the danger has been overblown, arguing that the traditional ratios of debt-equity and corporate liquidity no longer hold because of the internationalization of credit markets, tax laws that encourage debt rather than equity and financial deregula-

But another school says that the danger is all too real, holding to the principle that the only valid measure of a corporation's debt capacity is whether it could service its debt in a period of

What can be done now, other than for the government to prepare for huge ballouts? One step would be to reduce the federal budget deficit that, together with the Treasury's effort to lengthen the public debt, has pushed up long-term interest rates, leading corporations to go increasingly into short-term debt.

However, the outlook now is that the federal deficits will emain high and may even worsen. The effort of banks to protect themselves by setting variable interest rates on long-term loans also means greater danger for the borrowers if inflation returns.

Another way to strengthen the corporations would be to encourage greater internal financing. Here the New York Stock Exchange study charges that President Ronald Reagan's pro-(Continued on Page 15, Col. 4)

Oil Prices Sharply

Dollar Recovery, Rumors Blamed

ROTTERDAM — Spot crude oil prices dropped sharply Friday, partly because of the dollar's recovery and partly because of reports of Saudi Arabian transactions linking the price of its crude to its value in

processed products, traders said. On the European spot market, Britain's North Sea Brent crude traded downward to \$27 per barrel for October loading, from a low of \$27.30 Thursday, traders said.

Dubai crude, the most actively traded speculative Gulf grade, traded in the Far East at \$26.10 a barrel, down 50 cents from Thursday, and buyers were offering to pay less than \$26, traders said. The declines, traders said, were

based partly on the dollar's sharp upturn, and partly on a growing confidence in reports that Saudi Arabia had concluded arrangements under which it would sell crude oil to two of its four Arabian American Oil Co. partners at prices linked to its value in processed

Details on the reported Saudi agreements were not known, but there were reports that new sup-plies of Saudi oil were heading for

There was no confirmation of earlier speculation that oil derived from the reported transactions would be subject to destination restrictions, perhaps requiring it to go mainly to Europe.

Saudi Arabia has long been the strongest advocate within the Oranization of Petroleum Exporting ountries of strict adherence to official price levels. But industry sources estimated that Saudi output fell in August to a 20-year low of 1.9 million to 2 million barrels

Market sources said the Saudis would be tempted to devise some form of discounting to win back housest and such Saudi cuttout to buyers and push Saudi output toward the Saudi quota of 4.35 million barrels per day.

growing health-care, high-tech and government sec-tors here, Paula McLain Mixson was solidly anti-under the age of 35, who represent half of the nation's union when she moved to this Texas boomtown. During her childhood in East Texas, her father often told her not to take a job "where some union goes around telling you what to do."

But in her five years at the Texas Department of Human Services, Ms. Mixson has become a convert to labor's cause. A program analyst in her 30s, Ms. union membership, but they are not certain how Mixson switched allegiances after management repeatedly ordered sweeping job changes for her and her co-workers without consulting them. "Unions are the analyse without consulting them. "Unions are the table of the most important challenge unions face today," said Harry Hubpeatedly ordered sweeping job changes for her and her co-workers without consulting them. "Unions are the tant challenge unions face today," said Harry Hubonly way that the little people can have an effective say bard, president of the Texas AFL-ClO. "They're im-

over rules that govern them on the job," she now says. For the labor movement, signing up Ms. Mixson was a small, but important, victory after a decade of declining union membership and particular difficulty in enlisting young people. Increasingly, union leaders

are recognizing that if labor is to reverse its decline, it New York Times Service must woo more young workers. And to that end, AUSTIN, Texas — Like many workers in the last- American labor has embarked on a host of new labor force

Slowly, unsurely, the nation's unions are changing their ways, adopting new methods of organizing, em-phasizing new issues at the bargaining table and ad-libbing methods of cooperating with management. Leaders hope the new moves will reverse the decline in

portant for us to survive."

To be more attractive to today's highly mobile, better-educated and often white-collar young workers. (Continued on Page 13, Col. 1)

EPIC, Key Player In Thrift Crisis, Files Chapter 11

NEW YORK — Equity Programs Investment Corp., the real-estate investment arm of troubled Community Savings & Loan Association of Bethesda, Maryland, said Friday that it has filed for voluntary reorganization under Chapter 11 of the U.S. bankrupicy code.

"The action was taken to stay legal proceedings against EPIC," the company said in a prepared statement. EPIC said it expected to continue negotiations on finding a

Equity, a large syndicator of real-estate tax shelters, has missed a reported \$15 million in payments on \$1.4 billion in mortgages and mortgage securities.

placed EPIC and its parent under conservatorship and ordered a 45-day freeze on withdrawals,

A court official said that the Maryland Deposit Insurance Fund was named as conservator. The order was issued at the request of the Maryland Board of Savings and Loan Commissioners and the

state's insurance fund. On Wednesday, a federal district court in Alexandria, Virginia, ordered EPIC to hold in escrow payments received from mortgage loans that back certificates held by its investors.

The order was issued pending the outcome of a suit by two banks that asks that a receiver be appointed for EPIC and for the restitution of \$11 million in missed payments.

On Thursday, in Iresh evidence that the problems of Maryland's thrift institutions were having a broader impact, Ticor Mortgage Insurance Co. of Los Angeles said that it would cease writing policies because of potential losses it might suffer from its dealings with EPIC.
Analysis said the move by Ticor,

the nation's fourth-largest private mortgage insurer, could shrink the availability of mortgage insurance

honor insurance commitments out-

standing and would renew existing policies. But it said that as a result of uncertainty surrounding possi-ble losses from EPIC's policies and after discussions with the California Department of Insurance it would no longer accept applications for insurance beginning

Wednesday.

Ticor leads the private insurers that have written policies backing Equity Programs' obligations. According to Wall Street esti-mates, Ticor faces potential losses

of \$166 million on Equity Programs' policies it has written. A loss of that size would come dangerously close to wiping out Ticor's esti-mated capital of \$200 million

Meanwhile, Maryland Governor Earlier Friday, a Maryland court Harry Hughes signed an executive order Friday that eased withdrawal restrictions at 21 state savings and loan associations.

The order allows depositors to obtain funds to pay state, local or federal taxes. It also allows depositors to withdraw money if they can verify that they need to complete construction of new homes or to repay loans they obtained to pay

At a news conference, Mr. Hughes said the current savings and loan crisis in the state "is a classic case of unbounded greed' by thrift owners.

He said the state will do every-thing it can to hold them legally accountable, including criminal

Mr. Hughes also said that "a major New York money-center bank" is close to acquiring First Maryland Savings & Loan, one of the four large state-insured thrifts at which he froze withdrawals in

He would not identify the bank, but he added that Chase Manhattan Corp. is close to buying yet another thrift, Merritt Commercial nd raise premiums. Savings & Loan. He said both pur-Ticor said it would continue to chases could be formally an-

Bonn Finance Chief Raises '85 Growth Forecast

By Warren Gerler

BONN -- West Germany's In nance minister. Gerhard Stolten-TOKYO - The leading berg, said Friday that his country's American and Japanese elececonomy is likely to expand 3 pertronics industry organizations announced. Friday that they would form a committee to help cent for the year, up from 2.6 per-cent in 1984 and a half-percentage point higher than the government's increase imports of U.S.-made official projection of 2.5 percent made earlier this year.

He said capital-goods manufac-

turers would increase investment by 12 percent in 1985, providing a firm basis for the creation of new

jobs -- some 150,000 of which, he

said, are likely to have been gener-

ated by the economy as a whole

But Mr. Stoltenberg conceded that the government's chief domes-

since the fourth quarter of 1984.

"We agreed to cooperate by Mr. Stoltenberg, who this week defended his policy of fiscal resetting up a special committee to facilitate U.S. electronics exstraint before parliament during a ports to Japan," said Akio Morthree-day budget debate, said in an ita, chairman of Sony Corp. and head of the Electronics Indusinterview that the sluggish domes-tic economy had picked up marktries Association of Japan. edly over the past four months, with new domestic orders for capi-Mr. Morita and Stephen tal goods offsetting a drop in for-

Levy, chairman of the American Electronics Association, completed two days of talks on Friday. Mr. Levy, whose organiza-tion represents 2,800 U.S. elec-

tronics companies, said the talks should help reduce the growing U.S. trade deficit with Japan, which is expected to reach \$50 billion this year, with \$15 billion of that in electron-

tion had set up an office to stimulate demand for American goods. Mr. Levy praised the Japa-

nese government's recent market-opening "action program" and said that 120 Japanese companies have listed the kinds of electronics products they

a large influx of young workers [from West Germany's baby-boom for the next few years," he said.

He added: "That's hard to explain to German citizens. Our strategy is to establish the right fiscal and monetary conditions for creating jobs, which will have to come in the manufacturing sector and, to an even greater degree, in the service sector. Here the U.S. is a good model."

Mr. Stoltenberg said, however, that the government has no plans to diverge from its current economc strategy of reducing budget deficits and encouraging price stability. Since taking office in 1982, the government of Chancellor Helmut

Kohl has reduced the federal bud-

et deficit from some 31.5 billion Deutsche marks (\$10.9 billion at utiment exchange rates) in 1983 to a projected 24 billion DM in 1985. Asked whether he would consider moving forward by one year the second stage of a planned 20-billion-DM tax cut, to allow 9 billion DM in tax relief to take effect in

1987 rather than 1988, Mr. Stolten-

tic policy dilemma is "the fact that employment is rising, but unem-ployment isn't falling." cut forward is no longer an issue."

Last week, the influential Asso-Unemployment, currently at 2.2 moving the second stage of the tax million, or 8.9 percent of the work force, has remained at record levels cut forward to 1987, which was

U.K. Firm's Unit to Buy Arizona Bank Salomon Inc.

Los Angeles Times Service
LOS ANGELES — Union Bank COS ANGELES — Union Bank of Los Angeles said it agreed to buy United Bancorp of Arizona for 5335 million in cash. Union Bank is a subsidiary of Standard Chartered Bank. PLC, the London-based bank-holding company.

Union Bank thus becomes the newest player in the Arizona banking sweepstakes, which opened in April when Arizona lawmakers passed one of the most liberal interstate banking laws in the United

States, allowing unrestricted cross-border acquisitions.

Three weeks ago, Security Pacif-ic Corp. amounced that it would buy Arizona Bank, the state's thirdlargest bank, for \$480 million.

Arizona is seen as prime territory for large out-of-state banks be-

BRUSSELS - Société Génerale de Belgique SA, Belgium's largest holding company, pre-dicted Friday that net profit would rise substantially in 1985 and said that it planned an increase in dividends.

Union Bank, the sixth-largest The Union Bank purchase, an-California bank with \$8.2 billion in nounced Thursday, requires the approval of state and federal regulaassets, focuses on lending to small-and mid-size companies and does little business with individuals. tors as well as the companies' shareholders. It is expected to close United Bank of Arizona, the Oct. 1, 1986, when the new law state's fourth-largest banking com-pany with assets of \$1.9 billion,

takes effect. "We've been looking at Arizona for a long time," said John F. Har-rington, the Union Bank chairman. 'United Bank is an extraordinarily good fit for us. They have a common culture and common market.

He acknowledged that the purchase price of \$33 a share represented a relatively high 2.7 times
United's current book value. But he

cause of the permissive new law said that by the time the deal closed and the state's favorable growth prospects. Analysts predict that more acquisitions of Arizona banks will occur soon. The Main Ports

NEW YORK - Salomon Brothers Inc. announced plans Friday to acquire PGB Securities, a govern-ment securities inter-dealer broker, from the investment banking firm Mabon, Nugent & Co. Terms of the

accord were not disclosed. Thomas Strauss, Salomon's nomas Strauss, Salomon's managing director, said it acquired PGB on behalf of a number of industry participants, including Citicorp, BankAmerica Corp., First Boston Corp., Goldman, Sachs & Co. and Merrill Lynch & Co.

Mr. Strauss said one of the primary reasons Salomon sought PGB is to bring down the cost of bond transactions. He said Salomon expects to cut commissions on government-bond transactions by as much as 50 percent through its newly acquired interest.

Mr. Strauss said the partners had not yet decided whether to limit access to PGB services to the group of 36 primary government dealers. Currently, there are three major bond brokers who thus far only

clear trades for primary dealers. However, non-primary dealers have recently been pressuring the brokers for access to their directtrading systems.

One non-primary dealer, Lazard 310/300s ordered by Pan American Frères & Co., has complained to World Airways Inc. for delivery in 1987, it added.

Pan Am to Offer Flights to Israel

LONDON - Pan American World Airways has announced that it will launch a scheduled service between the United States and Israel next month.

Pan Am said it a prepared statement that it would operate statement that it would operate five flights a week beginning Oct. 27 to and from Ben-Gurion International Airport outside Tel Aviv. Flights will originate in New York and Washington, with passengers transferring to smaller planes in Paris for the trip to Tel Aviv. It quoted John Krimsky Jr.

Pan Am vice president for marketing, as saying the service would seek to take advantage of the winter market for flights to Tel Aviv. At present, Pan Am operates only charter services to Israel. Flights to Tel Aviv will be daily excluding Mondays and Tuesdays, U.S.-bound flights will be daily excluding Tuesdays and Wednesdays.

Air-India has invited bids for stockbroker, said it has agreed in syndicated loans and lease finance principle to acquire a 100-percent stake in Smith Keen & Cutler for for \$223 million to fund the pur-chase of six Airbus A310-300 an undisclosed sum. The agreem planes, an airline spokesman said.

British, French and West German spring.

spring.

Hang Lung Bank's value will be studied by Morgan Guaranty Trust Co., Hong Kong's government said. It said Morgan would advise the government on any sale of Hang Lung, which was taken over by the government in 1983 to save it from collapse.

Kanebo Ltd. has developed a ny-lon fiber one-fifth as thick as con-ventional nylon thread for use in sportswear and women's under-

ceived a license to operate a branch in the Shenzhen special economic zone near Hong Kong, a Bank of wear, the company said in Tokyo.
Matra, the French group, has
been selected by Chicago for a Credit & Commerce (HK) Ltd. of-ficial said. BCCI (Overseas) was 5119-million contract to provide a local train system to serve O'Hare International Airport, Matra said. The train, which will stop at three the second foreign bank allowed to open a branch in the zone, after Hongkong & Shanghai Banking airport terminal buildings, the parking lot and a car-rental area, should be operating by 1988.

Pearson PLCS outlook for the Financial Corp. of America said it would again omit a common stock dividend in the current quar-

rest of 1985 is satisfactory, al-though much depends on the sea-sonal information and entertainter but would consider the payment of a cash dividend next quarter. It last paid a dividend, of 5 cents per ment sector, the company said, Oil services, merchant banking and share, in January.

W. Greenwell & Co., the London

fine china improved substantially, it said, while engineering made a small gain.

Time Inc. has bought 80 percent of Asiaweek, a Hong Kong-based regional news magazine, for \$7 million, the Hong Kong Standard re-ported. Asiaweek's editor-in-chief, Michael O'Neill, however, described the report as premature.

Wang Laboratories Inc. has an-nounced the resignation of Jon F. Kropper, an executive vice presi-dent and one of the company's four top officials. Mr. Kropper will become president and chief operating officer of Hadco Corp.

Heineken NV Reports A 16.7%-Rise in Profit

AMSTERDAM - Heineken NV said Friday that profits in the first half of 1985 rose 16.7 percent from a year earlier, to 117.86 million guilders (\$36.9 million).

The company said sales in-creased to 3.25 billion guilders from 3.02 billion. It said it expects profits in the second half to also be higher from a year earlier.

Belgian Concern Optimistic on '85

It said growth in capital in 1984, which increased the group's capital and reserves to nearly 40 billion francs (\$697 million) from 34.8 billion francs, had sharply cut Societé

The Report on Hutton Overdrafts: Chairman, Though Cleared, Has Lost His Iron Grip

By James Sterngold
New York Times Service

NEW YORK - A long-awaited report on E.F. Hutton's illegal cash-management practices has concluded, as Hutton's chairman and chief executive, Robert M. Fomon, has said all along, that neither Mr. Fomon nor any other of the investment company's top management had masterminded the plan. The report even exonerated Mr. Fomon from blame for not exercising proper supervision over the cul-

Despite the clean bill of health, however, Mr. Fomon's grip on E.F. he will have less and less influence Hutton Group Inc. will never be at the very company that he built the same, The scandal, in fact, already had set in motion a series of changes at the company that have

The report, issued Thursday by Griffin B. Bell, the former U.S. attorney general, called for a shift in the balance of power on the brokerage house for 15 years. Any board of directors to majority rule by outsiders, rather than by inter-

Reuters
LONDON — New-issue activity

in the dollar-straight sector came to an abrupt halt Friday afternoon as

the secondary market fell by as

much as a point after unexpected

news that the U.S. unemployment

rate had fallen to 7 percent in Au-

gust from 7.3 In July, dealers said.

In the morning two dollar-straight issues had been launched

and more were expected if U.S.

markets had opened firmer. But the

unemployment news led to active

professional selling here and no

further bonds emerged. Many of

this week's new issues are now trad-

ing far outside their total fees, deal-

-Most operators had expected the

U.S. unemployment rate to remain

static, dealers noted. Nonfarm pay-

roll had been forecast to rise by between-150,000 and 200,000, but

the eventual increase was a jump of

288,000. "The figures were an un-

pleasant surprise to say the least," a

ers noted.

BUSINESS PROFILE / Paula Stern of the ITC

Leading M*A*S*H Unit for Economic Casualties

By Clyde H. Farnsworth New York Times Service
WASHINGTON — Her senior

staff calls her "the general." She calls her agency "the M*A*S*H unit for America's economic casualties," referring to a popular U.S. television show about a medical unit in the Korean war. She ticks off numbers to show that at the front it is plenty hot.
Paula Stern heads a staff of 458

at the International Trade Commission, a federal body that helps the U.S. government decide whether to raise tariffs, set quotas or take other measures to protect industries battered by foreign competi-

One of its recent cases involved shoes. The commission ruled that the U.S. shoe industry has been severely injured by imports and was entitled to quota restrictions to shield it from further ravages. But President Ronald Reagan on Aug. 28 rejected proposals for quotas or tariffs on the products.

Mr. Rengan, indeed, occasional-rejects the ITC's recommendations. Last year the commission wanted to give the copper industry higher tariffs, but Mr. Reagan decided against any protection. He did, however, go along with the commission's proposals to protect stainless steel and motorcycles.

We're the first place they come Miss Stern said, "Unfortunately, the U.S. trade-law system is being tested by an avalanche of requests for import relief. Our caseload grew by 88 percent between 1981 and 1984, and so far this year is up 26 percent."

Miss Stern bewails the state of the economy that has produced such industrial bloodletting.

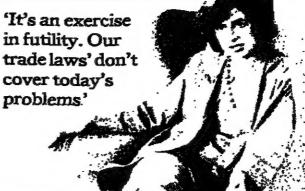

"Yes, we're the M*A*S*H unit, but we're also Sisyphus trying to push the rock uphill," she said. "It's an exercise in futility because our trade laws simply were not meant to deal with the kinds of problems we have today, like the sky-high dollar, which has rendered the entire economy vulnerable to imports.

These viewpoints strike some people as somewhat strange, coming from a woman who, before she Washington, was chairman in the became chairman, had a reputation late 1970s. as one of the most ardent "free traders" on the ITC. More recently

her decisions have leaned in favor of protection.

But Miss Stern, 40 years old, a soft-spoken product of the Mem-phis, Tennessee, public schools, now calls herself a "fair trader," denies any inconsistency and adds:

"I calls them the way I sees them." Miss Stern has a doctorate in international affairs from the Fletcher School of International Law and Diplomacy at Tufts University in Medford, Massachusetts.

She was a freelance journalist and specialist on Middle East and Soviet studies before coming to Washington 10 years ago to work as a legislative assistant to Senator Gaylord Nelson, the Wisconsin Democrat who is now head of the Wilderness Society.

After completing the book that became her Fletcher doctoral dissertation and was later published, 'Water's Edge: Domestic Politics and the Making of American Foreign Policy," she was named to one of the six seats on the commission

by President Jimmy Carter in 1978. In June 1985, President Reagan appointed her to a two-year term as chairman, which gave her a \$100-a-month, raise. The chairmanship pays \$71,100 a year, against 369,900 received by the other com-

She is the second woman to serve as chairman in the agency's 69-year history. Catherine Bedell, a legislator and educator from Yakima,

The chairman has the same vote as the other commissioners, about right to keep their jobs, he ruled.

pli'es, assembl'es and pirouettes at the Washington School of Ballet. She and her husband are also avid

tennis players. How does she fit all that into her already full schedule as a mother and head of one of Washington's most active agencies? "I get up ear-

shrug.
The commission's big move will be from one of the oldest buildings in Washington — a gracious mar-ble building with Corinthian pillars, cantilevered staircases, louvered swinging doors and four-foot-thick walls begun six years before the Civil War "somewhere between the White House and Capitol Hill."

Why the move? The Smithsonian Institution had its eye on the building for another museum and was willing to put the money up to restore it. Among other things, the building has rats in the basement

and cracks in the roof. If it has become a figurative M*A*S*H unit in the 1980s. it actually was an Army hospital during the Civil War, according to some accounts, and Walt Whitman, as a male nurse, was reported to have tended some of the wounded there. (M*A*S*H stands for Mobile Army Surgical Hospital.)

Those who have watched "the general" cope with the trade casualties give Miss Stern a pretty good

efficiency rating.
"I'd say she's developed an indepth understanding of what it takes to keep the commission moving," said Bill Alberger, a former chairman and now a Washington trade lawyer. "From everything I've seen the trains are running on

Michael H. Stein, another trade lawyer who served as general counsel of the commission from 1977 to 1984, said of Miss Stern: "She does her homework. She's continued the process of upgrading the commission and making it effective."

Miss Stern's parents, Lloyd and Fan Stern, ran a furniture store on Thomas Street in Memphis, which is where she says she developed her sense of business and fascination with both domestic and international trade. They loved commerce, and I

guess some of it rubbed off on me,

REPRISE: The Extraordinary Revival of

By Joel Cohen and Herb Snitzer. 227 pages. \$25.

31 Host

Little, Brown, 34 Beacon Street, Boston, Mass. Reviewed by Robert Aubry Davis

D URING the 1960s, when a fantasy chronicle by an established medievalist named J. R. R. Tolkein achieved the status of scripture, albums began appearing mixing folk and Renaissance musi-cal idioms. The guitarist John Renbourn introduced many to the splendors of ancient dance music. Judy Collins recorded a work by the 14th-century composer Francesco Landini. Even Grace Slick played the recorder on the Jefferson Airplane's "Surrealistic Pillow.' And people wrote like this:

"In a world that seems to grow more and more indifferent to human need, a world where destruction seems to outpace creation, early music per-formers create music for anyone interested in emoying, hearing and growing from the experience... to make our little field of specialized activity

49 Atop, for short

reach across boundaries and fill the whole cosmos with the sounds of renewal and rebirth."

People still write like that. In fact, these words,

from the introduction to "Reprise," were written by the performer and conductor Joel Cohen, who, as one might surmise, is from the '60s. The book is half his words and half Herb Snitzer's pictures of the players who have embraced long-dead music and breathed new life into it.

Like any instant history, "Reprise" is anecdotal and casual, witty and frustrating. There is satisfac-tion that lacunae are being filled, mingled with the nagging realization that this can't be the whole story. The sense of lost opportunity is not diminished by the fact that Cohen is one of the best people in the early-music field, musically and intellectually.

The rebirth of early music owes a great deal to Arnold Dolmetsch, born in 1858. In his eight decades, his impact was enormous, not only on the generation of Dame Sybil Thorndike, Joyce and Shaw, who were all affected by Dolmetsch concerts,

Solution to Last Week's Puzzle

but on the generations whose influence lives today.

the concert halls that they had been playing Bach wrong all these years, sparks began to fly. Using gambas instead of cellos and holding your bow a funny way, though now generally accepted, remains the hottest issue in this rebirth: "the challenge to established ways of performing late baroque and pre-classical music was by far the most controversial part of the whole early music movement."

lent of chicken scratches, we must intuit the art of an age. Cohen reminds us that in the early 1950s

But a revival is not a return. In the most important and vital section of the book, Cohen asks, "Do we strive above all for objective knowledge about experience?" Though he observes that "the dulci-mer-strumming flower children have been overtaken by a newer generation of trained professionals," it is clear where his sympathies lie. The hyperacademic approach robs us of any perception of art

music affords us to come face to face with remote yet vitally important parts of our own selves."

94 Crow's crop 95 Longfellow's 77 Affectionate bell town

Cohen recognizes that Dolmetsch lived to see his work seem hopelessly old-fashioned. Yet he goes shows that each performer, each group added in some way to a kind of accumulated knowledge of what must remain forever impossible: to sing and play exactly as they did in 1385, or even 1785. As early-music types began to tell the big boys in

Which leads finally to that unanswerable question: Is it authentic? We can never have "just one scratchy 78-rpm disk from the 16th century" or just one battered cylinder recording of the 12thcentury troubadour Marcabru." From incomplete

manuscripts, sometimes from the notational equivawhite jazzmen tried to make an authentic revival of the New Orleans jazz of the 1920s; even with 78s, even with living practitioners to copy, the attempt was completely inadequate.

behind the notes.

"We need the music of our ancestors," Cohen argues. "We need its calm and its passion, its sensuality and its grace. We need the opportunity this

SPORTS Smith Implicates Other Players

As First Witness at Drug Trial

By Murray Chass
New York Times Service
PITTSBURGH — Lonnic

Smith, the first basebalt player to testify in the federal trial of an accused drug dealer, Thursday named Joaquin Andujar, Keith Hernandez and Gary Matthews as relevent who were involved in players who were involved in cowith the Philadelphia Phillies and the St. Louis Cardinals. In his four hours on the witness stand, Smith also identified Dickie

Noles and Dick Davis as fellow users, and said Davis, a former major leaguer now playing in Japan, was the person who introduced him in 1981 to Curtis Strong, the Philadeiphia caterer who is on trial on 16 charges of cocaine distribution. Strong was one of seven men indicted last May after being accessed of selling cocaine to basehall players in Pittsburgh.

Smith, an outfielder for the Kansas City Royals, said he was introduced to Luis Martinez, whom he identified as his St. Louis cocaine supplier, in 1982 through Andujar, then the top pitcher for the World Series champion Cardinals.

Martinez pleaded guilty to two claims of cocaine distribution last year and is in federal prison serving three-year sentence, according to Charles Shaw, an assistant U.S. attorney in St. Louis, Shaw said Martinez worked for Andujar by run-

Ross said that "major league baseball is not on trial here; Curtis Strong is." But the primary attenmony about the players with whom he said he used cocaine or for whom he said he bought it or from whom he said he received it.

A spokesman for the Cardinals, Jim Toomey, said Thursday night that Andujar had indicated he timony and that club officials would not comment. The Chicago Cubs did not return calls placed in an effort to reach Matthews, an

Besides the five players he named, Smith talked about some players who he said used "greenes," or amphetamines. Strong's lawyer, Adam Renfroe Jr., raised the name of Mike Schmidt, the Phillies' first baseman, during a prolonged cross-examination

Renfroe asked Smith about members of the Phillies who used cocaine. After Smith named Davis, Matthews, Noles and himself, Renfroe asked about Schmidt, for a long time the Phillies' all-star third baseman. J. Alan Johnson, the U.S. attorney, objected and Judge Gus-tave Diamond asked Renfroe, "Do you have a reasonable basis for

Renfroe replied that he did and Diamond summoned the lawyers to the side of the bench for a conference. But after a 17-minute recess the judge told the jury, "A question was asked that implied certain individuals used drugs. The court is satisfied there is no adequate basis for that question and you are to disregard it."

said he knew used "greenies." Answering a question about a 1980 case involving the Phillies and "greenies", he said ha "believed" the players involved were Pete Rose, Larry Bowa, Greg Luzinski and Randy Lerch. Those names had surfaced at the time.

Testifying about his own cocaine purchases, Smith, who had been granted immunity from prosecution, said he bought the drug from Strong at least three times in 1981 in Philadephia, twice in 1982 and once early in 1983 in Pittsburgh-Between the 1982 and 83 seasons Smith said, Strong sent cocaine to him at his home in Spartanburg,

South Carolina, by express mail.

Smith testified that he met Strong in 1981 in Davis' hotel room in Philadelphia, Matthews, he said, also was there. "We were waiting to purchase cocaine," Smith said, meaning himself, Matthews and

Smith, traded to the Cardinals before the 1982 season, said he continued his cocaine use with Andujar and Hernandez During the Cardinals' visit to Pittsburgh that September, he testified, he bought cocaine from Strong for himself

and his two teammates. Asked by Johnson how he got together with them after he made the purchase, Smith said, "I would call them in their room or they

would call me to see if I purchased it for them." Johnson: Did you use cocaine with Keith Hernandez?

Johnson: Did you use cocaine with Joaquin Andujar?

Smith: Yes. Renfroe repeatedly tried to shake Smith's testimony, painting him as a wealthy player who had received immunity from prosecution and was using it to save himself by implicating Strong. However, Smith was cool, precise and articulate through his four hours on

the stand. At one point, Renfroe asked Smith about how he knew the substance he received from Strong was cocaine. Smith said Strong told him it was cocaine, at which point Renfroe said, "You

I wanted to." Noah said. "I don't even feel as if I played. I'm not even He had little reason to be tired

after his 6-2, 6-2, 6-4 quarterfinal loss in the U.S. Open to No. 2seeded Ivan Lendl. Neither did Heinz Gunthardt of Switzerland, who looked just as

meek Thursday night in losing, 6-2, 6-2, 6-4, to No. 4 seed Jimmy Connors. Those rapid-fire victories put Lendl and Connors into Saturday's semifinals, where they will resume their old and bitter rivalry.

"I'm looking forward to it," said Connors, who is seeking a sixth Open title. "I like to compete. He gained his 12th straight Open

semifinal because Gunthardt simply was not up to the occasion Connors broke service in the first game of their match and ran off the first four games with the total loss of four points.
Gunthardt tried. He wailed at

several line calls. He rallied with Connors at length. He tried to come in, but was sent ducking for cover because Connors had his ground strokes zeroed in.

Even at 33, Connors does not lose to players ranked No. 47 in the world. Not here, not on the one court on which he must be given a legitimate shot at beating Lendl. even though Lendl has won their last six meetings, several of them overwhelmingly.

"It is always tough for me to play Connors here," Lendl said. "The crowd seems to enjoy giving me a hard time and he somehow gets them turned on for him. I don't know why it is."

It is not hard to explain. Thursday night, Connors entertained the crowd despite the onesidedness of cane after missing an easy volley, turns in old-style Connors fashion. The victory was the last of a

Navratilova Easily Beats Graf

NEW YORK - Two-time defending champion Martina Navrati lova, her serve at peak form, defeated West German teenager Steffi Graf, 6-2, 6-3, Friday and advanced to the women's singles final.

Navrailova, seeded No. 2, needed just 52 minutes to brush aside Graf, 16, who got to the semifinals by outlasting Navratilova's doubles partner, No. 4 seed Pam Shriver, in a marathon Thursday. "I was thinking really well out there," Navratilova said. "When you're serving well, you can do that, you can play with your serve

The wind, she added, "was swirling around and I was seeing which way it was blowing and deciding whether to hit it at her or away from her, depending on which way it was going. "I felt like a pitcher out there: 'Okay, I'll go to the slider now, then

the fast ball." It was fun, and it worked because I had the rhythm with my serve, even with the wind."

Graf, the No. 11 seed, who had never gotten as far as a semifinal in any Grand Slam tournament, broke Navratilova's serve only once, in the eighth game of the second set. It brought a cheer from the crowd in the half-filled stadium court at the National Tennis Center.

"I felt that I really broke myself when I lost my serve," Navratilova said. "It was a lack of concentration because I was really winning so easily, easier than I thought I would be." She then broke right back to

When the match was over, Graf almost sprinted off the court. "I was trying to tell her she had a great tournament but she walked away before I had a chance," Navratilova said. "I guess she was disappointed but she really shouldn't be. I think she went a lot further than she expected to."

quarterfinal round that may have been the most desultory in Open history. Anders Jarryd retired in the third set against Mats Wi-lander, Joakim Nystrom was routed by John McEnroe, and Lendl and Connors embarrassed their op-ponents. Only Jarryd won so much as a set in losing.

LendI said he thought Noah, seeded No. 7, had tried to pace himself in the afternoon's oppressive heat "from the very first point. I started out to do that but after three or four games I realized I could go all out and I wasn't going to get that tired. If he had kicked in and I had gotten tired, I might have been in trouble. But he never did."

At his best, Noah is one of the most graceful players in the game, a superb athlete who can hit spectacular shots. But he double-faulted in the match's third game to give the match. He used his racket as a Lendl his first break, and netted an easy volley for the second one. He waved down booing fans to check a walked around as if the heat was line after a shot by Gunthardt was bothering him terribly. He was dis-called out and crushed several regusted with himself and, at times, appeared embarrassed by his play.

Was he embarrassed? No.

Then what happened?

"I was tight starting out," said Noah, who had claimed two days earlier that the pressure was on the higher-seeded Lendl. "I thought could win, that I would win and I was already thinking about the semifinals and the final."

Noah, the French Open champion in 1983, has never gotten past the quarterfinals in any other major tournament. Lendl, who has been the losing U.S. Open finalist the past three years, made certain Noah's record remained intact. He his the ball hard from the start, kept Noah pinned at the base line and was helped by Noah getting only 50 percent of his first serves into play.

"I lose a lot of confidence in my game if I am not serving well," Noah said. "I really wanted to play a great match but I never got started. It was never a close match. I had one break point" in the third set "and when I didn't get that my one chance was gone. I didn't give everything I could I didn't even

Grant May Get Painful Welcome as NFL Season Opens

Compiled by Our Staff From Dispatches their first game under a new coach. at the Metrodome will cheer the return of Bud Grant to the Minnesota Vikings, but might reserve a few boos for the National Football

League schedule-makers. After a one-year absence, Grant returns to coaching as professional in sacks last year, will mi football begins its 1985 season. But game with a broken thumb. the Vikings face perhaps the NFL's toughest team, the Super Bowl champion San Francisco 49ers. Grant, who coached the Vikings

for 17 seasons before retiring, said he is not worried. "What happened last year really has no bearing on what will happen Sunday," he said.

San Francisco quarterback Joe Montana appears fully recovered from an inflamed disc in his lower back, an injury that sidelined him through much of the preseason. Harrah's Reno Race & Sports Book has made the 49ers 12-point

Summer Track Season Was a Record-Breaker

By Robert Lohrer and Ed Nicklas Washington Past Service

WASHINGTON - Mary Decker Slaney of the United States, Morocco's Said Aouita and Britain's Steve Cram have dominated this summer's 15-meet IAAF Mobil Grand Prix track and field circuit, which ends with Saturday's meet in Rome. Decker seems to have recaptured the lime-

light that eluded her a year ago. In Zurich, she regained the world record for the women's mile, finishing in 4 minutes 16.71 seconds while defeating Maricica Puica and Zola Budd. Slaney has won 12 consecutive races and leads the women's point standings. Aonita and Cram each set two world records this summer. At the Bislett meet in Oslo on July 28, Cram took 1.02 seconds off Olympic champion Sebastian Coe's 4-year-old mile record of 3:47.33. Aouita, the Olympic cham-

pion in the 5,000, recorded a world-record 13:00.40 in that event. At the same remarkable meet, Norway's Ingrid Kristiansen ran the 10,000 meters in 30:59.42, taking 14.36 off the old record. Less than two weeks before the Oslo meet. Cram, running in Nice, set a world record in the 1,500 when he ran 3:29.67, taking 1.10

meters. But his record in the 1,500 did not last long. On Aug. 23, in Berlin, Acuita, running with a bad hamstring, was timed in 3:29.45, his second world record in less than a month. Actita leads the men's points standings, with only Sydney Maree of the United States having an outside chance of catching him. Acuita has said he plans to run in Saturday

night's 1,500 meters, despite reinjuring his tender thigh while beating Marce in a 2,000-meter race Wednesday in nearby Rieti. The summer has not gone as smoothly for the U.S. quadruple Olympic champion, Carl Lewis. He missed two months of the season when he pulled his right hamstring. Although he has finished fourth in Zurich in the 100 meters and fourth in the 200 in Berlin since

his return to competition in late August, he says his "his legs are coming back." Kristiansen, who set the women's mara-thon world record of 2:21.06 in April, became the first woman to break 31 minutes in the 10,000, eclipsing 31:13.78 set by the Soviet Union's Olga Bondarenko in June 1984. Slaney, who failed to break the women's world record in the mile Aug. 2 in London,

dramatically took the record away from

Puice three weeks later in Zurich. It was

Puica's time of 4:17.44 that broke Slaney's

record in 1982. Running against Puica and

place time of 4:17.33 set Romanian and European records. Budd, coming in third in 4:17.52, broke the British record.

When the three runners met again Aug. 30 in Brussels, Slaney won her 12th straight race. Again, they were separated by seconds. Slaney's 3:57.24 was a world best this year. Despite several disappointing losses earlier

in the summer and harassment from antiapartheid protesters in Britain since she moved there last year from South Africa, Budd had won three straight races before that, setting the women's 5,000-meter world record Aug. 26 in London. She secretly entered the London meet and broke Kristiansen's record by more than 10 seconds, timed in 14:48.07. Although Kris-

tiansen also bettered her mark of 14:58.89.

finishing in 14:57.43, she was far behind

Budd

While Budd is finishing the summer's com-petition on a high note, Petra Felke of East Germany began the season the same way, becoming the first female javelin thrower and second person ever to set two world records in the same series. On June 4, at Schwerin, East Germany, her throw of 246 feet 11 in the second round broke the record of 245-3 set by Finland's Tiina Lillak in 1983. But Felke was seconds off the old mark. On Aug. 4, in Budd for the first time since the 1984 Olymbrian not finished. In the fourth round, she increased the mark to 247-4.

NEW YORK POSTCARD

Road Workers' Woes

By William E. Geist New York Times Service

NEW YORK — Sometimes they run you down and someing to Yvonne, the self-described flaglady of First Avenue.

Motorists moving past painstakingly slowly will occasionally ask her out for dinner and dancing You can get to know someone quite well at one tire rotation per minute. said he got a fiendish delight driv-Did she ever accept such an invitation? "You've got to be kidding!" she answered, waving traffic by with her orange flag. "Go out with a motorist? No way!"

Why? "One of them purposely ran me down," she said. "They get crazy at this time of year."

This is the season of the orange traffic cones, those annuals now blossoming on seemingly every thoroughfare, slowing traffic to a glacial pace and driving already beleaguered New York motorists to new levels of frustration.

They tend to take it out on the road workers. After breathing exhaust fumes, listening to jackhammers and watching radiators boil over, they glare, shout their favorite profanities, make obscene gestures and throw things at the crews.

Sometimes the motorists are so angry that they want to fight. Yvonne said she knows of flagpersons who have been assaulted. "You can't lay down your life,"

said Timothy Robinson, a flagman working on a construction project at the corner of 102d Street and Third Avenue. "I tell them the street is closed, and when they say they don't care, I stand back and watch the cones fly."

is installing water mains beneath upper First Avenue, would not divulge her last name for fear of crank telephone calls from motor-

She was dressed in an orange hard hat, dark sunglasses, orange vest, jeans and work boots, and she spoke matter of facily of motorists cursing and spitting and throwing cigarette butts and soda cans at her as they drove by.

"New Yorkers complain about the streets and want them fixed," said Tony Fasulo, a City Bureau of

Highway Operations supervisor, but they don't want to suffer one

The very sight of an orange cone times they ask you out. So it goes in sends Steve DeNiro into a rage, he the life of a flagperson on a summer said, as he drove his Porsche past road-construction project, accord- some cones at a construction site on First Avenue. By this point of the construction season, it is as if a red flag were being waved in front of a bull, he said.

Mark Wilkes, a motorist eating lunch in his car on First Avenue, ing over the cones and squishing them under his tires.

"I'll tell you how bad it is," said Bill Jenkinson, who was reading a 1,100-page novel in a traffic backup caused by repairs on the Henry Hudson Parkway. "There have been people at some of the bad construction sites hawking food and drink to drivers, just like at the

"It is absolutely amazing that we can get anything done in Manhat-tan," said Fasulo of the highway bureau, who was watching over the resurfacing project on 102d Street. "There is continuous traffic day and night."

He said that 800,000 vehicles flowed into Manhattan each workday and that traffic began racing over the fresh asphalt when it was still warm. "There are hundreds and hundreds of festivals and parades and marathons and bike-athons and demonstrations every year in New York," Fasulo said.
"We start paving and a band comes marching up the street."

Brown added, "There are so many pedestrians that normal people just walk right into the cement or apshalt." New York City, he said, "has a lot, I mean a whole lot, Yvonne, an employee of Edenwald Contracting Co. of New York ment on purpose and dance. We extract them, wash them off and send them on their way."

"Sometimes we find ourselves in the middle of drug busts or robberies," he said. "We often have to stop work and let the police come through, especially if they have

The crews often have to wait for asphalt trucks caught in traffic. When the trucks were late returning from the asphalt plant, one of the workers said, "Probably ran into a road repair backup."

Art Buchwald is on vacation.

British Cultural Boom Threatened by Fund Cuts

By Elaine Attias I ONDON — Whether in the downstairs snack bar at Liverpool's Everyman Theatre or in the offices of the chairman of the Royal Opera, Covent Garden, the arts community of Britain is filled with fear, anger and, occasionally, despair. The worry is that the Thatcher government's stern monetarist economic policies are eroding the country's postwar cultural renaissance.

"Everything that we have painstakingly built up over 30 years is being destroyed," said Pe-ter Hall in the South Bank offices where he directs the National Theatre. In the lobby, citizens sign petitions protesting funding cuts that Hall said forced him to close down the Cottesloe, the National's experimental theater, where "Glengarry Glen Ross" and Sam Shepard's "True West"

The Thatcher government is blamed for not providing an adequate level of subsidy, on which the arts have come to depend since the end of World War II. It is charged that policies of retrenchment and privatization, applied to the arts, are on the way to

postwar success story.
In addition, Lord Alexander
Hore-Tuthven, the Earl of Gowrie, was removed this week as arts minister in a reorganization of the Thatcher cabinet, leaving open the question of which direction Richard Luce, who has assumed Gowrie's responsibilities, will

Gowrie's policies were criticized by some in the arts commu-nity. Hall said, "At the Standard awards dinner this year, I heard Lord Gowne get up and say, 'I am proud to be able to say that the West End theater is flourishing without a penny of subsidy. On that very day, of the 40 shows in the West End, 19 had originated in the subsidized theater, to say nothing of the actors, writers, designers, lighting experts. Unfortu-nately we call it subsidy. If we called it investment, they might consider the whole matter differ-

wrecking the country's one big formed, is symptomatic of the postwar success story. formed, is symptomatic of the problem. Deep cuts in its subsidy from the Arts Council has forced the company to less than half its

normal production.
The Arts Council is the quasiindependent body that allocates most of the government arts funding. Museums and libraries are funded directly.

Regional repertory companies that were once innovative are also suffering.

Last year Willy Russell, author of "Educating Rita," with its eco-nomical cast of two, was Britain's most widely produced play-wright; it was the first time in memory that the honor had not gone to Shakespeare. Ian McKellen, alternating in

leads in the National Theatre's "Coriolanus" and "Wild Honey," said of subsidized companies: "Nicol Williamson, Gleuda Jackson, Derek Jacobi, Edward Petherbridge, Judi Dench - this is where we all learned to act. The new thinking is that if something doesn't immediately make money

The ranks of nations enjoying high mistake in denying the Arts pound culture, said John Calder, who Council's request this year for grants. lishing house out of a tiny office keep pace with inflation. The

Many view the idea of seeking are just a few of the writers Calder help from the private sector with introduced to Britain. This year skepticism Britain does not prothe American system is the panathe Arts Council cut his grant by vide effective tax incentives for 28 percent. Next year he has been individual or corporate gifts. Prior told he will get nothing.

The atmosphere seems far difficulty in the atmo Claus Moser, chairman of the

Royal Opera, Covent Garden, said, "The Royal Opera is just the kind of place private businesses Goodman, an early Arts Council like to support. But with all our chairman. "A civilized governative advantages and all our efforts ment must support them. If it over many years, we are now able does not, it is falling short of its to raise from the private sector duty not only to present but to something in the order of between four and six percent of our costs. If we are cut again next year bevarive governments continued to low inflation, Covent Garden as it exists cannot continue." The Tate Gallery recently held

a packed public debate on "What Price Arts Sponsorship?" In the end, there seemed to be a consensus that corporate sponsorship, if not accompanied by adequate subsidy, provides few answers. Whenever the problem of arts funding in Britain is addressed these days, inevitably the United

Peter Hall: Thirty-year

sion this year to can the total grant said Rees-Mogg. "I start out with of the American system for Britto literature in half as "utter the assumption they are likely to ain. His proposal is for public subsidy, considerably larger than pound-for-pound matching

> But there remains a powerful reluctance to forgo the subsidy system that until recently had proved so successful.

desirable - for the arts to be left to the private sector."

Opinion polls and recent byelections show that the Conservatives running behind both Labor and the Liberal-Social Democratic alliance. With elections still more than two years away, the question of arts funding and the stand the new arts minister will take have become important political issues. Nathan Buchan, the Labor Par-

y's shadow arts minister, has pledged to double the govern-ment's arts budget within a year of taking office.

Under the Conservatives, the really substantial cuts, it is said, will come in 1986, when the arts will lose the grants normally provided by the Greater London Council and the six other regional metropolitan councils, a tier of local government that the Conservatives, largely for political rea-sons, have voted to eliminate. Will Thatcher, as some are be-

ginning to hope, releut? Skeptics seem to outnumber the optimists.
Virtually the whole British arts community is banding together in the newly formed National Campaign for the Arts to fight back on the political level.

More people in London go to the theater than go to football matches," Peter Hall said. . . . We're going to mobilize

Elain Attias, a Los Angeles writer specializing in the arts, wrote this article for The Washington

PEOPLE

Country Stars Will Go On Rails to Aid Farmers

Merie Haggard and other country performers will begin a week. long whistle-stop journey on a chartered train Sept. 16 in Baker. field, California, to dramatize the plight of American farmers. The train will arrive in Illinois on Sept-22 and Haggard will join Willie Nelson, Bob Dylan, Nell Young and other stars in the Farm Aid benefit concert. Along the way the train will pick up country artists inches. ing Tannny Wynette, Lacy J. Bal. ton, Hank Snow and Jame Fricke

Princess Ira von Furstenberg strongly denied Friday reports fire she and Prince Rainier of Monage planned to marry soon. This week she fled the Venice film lostival to escape paparazzi eager for shots of her with the prince's elder daughter, Princess Caroline.

There may not be any real Rappaports onstage during the Broadway production "Tim Not Rappaport," but next Thursday night the audience will more than make any for it. Every one of the 327 seats in the American Place Theater will bold a Rappaport. Mark Rappaport of Wayne. New Jersey, president of a food service company, seat outletters to all Rappaports in the phone directories within 150 miles of New York and reserved the hadater for a Rappaport-only evening. Ticket requests have come at from as far away as California.

 Billy Graham will lead several services in the Romanian district of Transylvania where Baptist con-gregations have been thirting in spite of strict state control, according to Ed Ploughman, a spokesman for the Southern Baptist evaluation of Romania and Hungary on Satur

A Swedish artist and her Soviet fiance have been reunited in Stockholm after she went on a hunger strike for three weeks to pressure Soviet authorines to let him out of the country. Marie Anne Farroy, 30, had not stopped her fast with Valentin Varou's plane landed. "I dare not believe it until I see him." she said shortly before Yurov, 33, a journalist, arrived at the airport The couple met last year.
